In this side event, learn more about:

- **Impact** that the participation in Access to Space for All can bring **to your country/region**
- **Success stories** from teams that have taken part in the initiative
- **Structure** and details of the initiative
- **Upcoming** hands-on experiment **opportunities, events** and informative educational/tools content that the initiative is offering
- How to **partner** with UNOOSA to provide capacity building opportunities

WHAT IS THE ACCESS TO SPACE FOR ALL INITIATIVE?

The Access to Space for All initiative is a joint initiative of UNOOSA and space agencies, research institutions and industry to offer access to space research facilities, infrastructure, and information with the aim of developing technical know-how, engineering processes and infrastructure in the areas of hypergravity and microgravity, satellite development and space exploration and promote international cooperation in the peaceful uses of outer space.

Speaker list:

- Luc St-Pierre, Chief, Space Applications Section (SAS), United Nations Office for Outer Space Affairs (UNOOSA)
- Jorge Del Rio Vera, Scientific Affairs Officer, SAS, UNOOSA
- Hazuki Mori, Expert, SAS, UNOOSA
- Wenbin Zhang, Expert, SAS, UNOOSA
- Fabio Richard Diaz Palacios, Project Coordinator for DropTES team, Universidad Católica Boliviana “San Pablo”
- Vickram Bissonauth, Co-Project Coordinator for KiboCUBE MIR-SAT 1 team, Mauritius Research and Innovation Council
