

**UN International Committee on GNSS (ICG)
7th IDM Workshop
at the
Royal Institute of Navigation (RIN) BASKA GNSS Conference
Baška, Croatia 08-09 May, 2018**

08 May, 2018

(Open to all conference participants and ICG WG-S members)

1500: Opening Discussion / Introductions

#1 1510: “Galileo Program Update”, Mr. Karl-Ivar Jahr, European Commission

#2 1530: “Crowd-Sourced Platform for GNSS Anomaly Identification, Isolation and Attribution Analysis” - Mark Dumville, General Manager, NSL

1550: Discussion: Impact of Google’s Announcement: GNSS raw measurements (carrier and code measurements) will be made available from Android 7.0 devices.

#3 1610: "Proposals on Issue of Interference Detection and Mitigation in GNSS Spectrum "
Dr. Dimitry Aronov, Program Manager, GEYSER Telecom

#4 1640: "Practical Assessment of Electromagnetic and Interference Environment at the Measurement Point in GNSS Frequency Bands. Recommendation. The results of the development. Current version".
Dr. Stanislav Kizima, Deputy Director General, DCMM&S “Vector”

#5 1710: "Alerting Processes Related to Areas of GNSS Disruption (Current Disruptions in the Eastern Mediterranean Sea)", Gerhard Berz, Focal Point Navigation Infrastructure, EUROCONTROL

#6 1740: GNSS Interference Evaluation and Mitigation for Aviation, Mr. ZHEN Weimin, China Research Institute for Radiowave Propagation

1800: Discussion

=====

09 May, 2018

**Closed session of IDM Workshop/IDM Task Force/Compatibility Subgroup in morning
(open to ICG WG-S members and invited participants only)**

0800-1200

Discussion
Development of Recommendations
Compatibility and Spectrum Protection Subgroup Meeting
