

**The First United Nations Conference on Space Law and Policy**  
**Co-organized by the Government of the Russian Federation and**  
**Hosted by the State Space Corporation “Roscosmos”**

**11-13 September 2018**

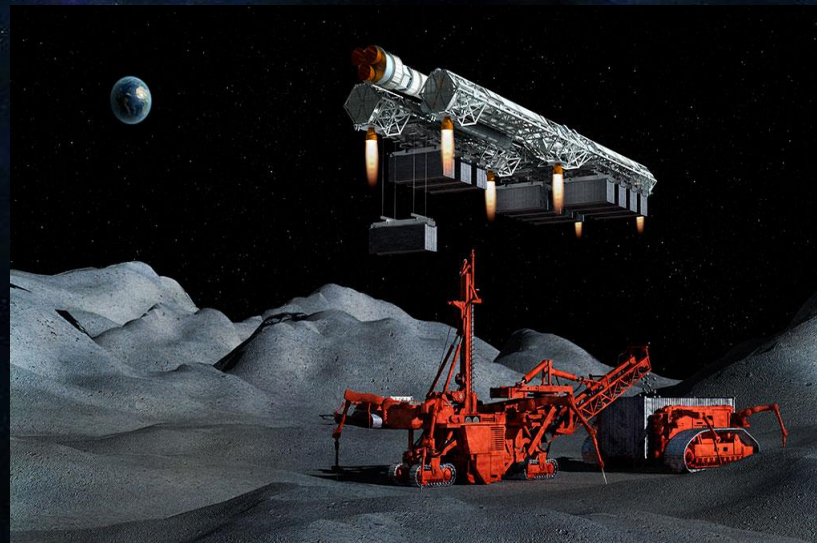

**Moscow, Russia**

## **The objectives of the Conference are as follows:**

- 1) to promote knowledge of the legal framework applicable to activities in outer space thus serving the interests of spacefaring and developing nations;
- 2) to draw attention of the authorities and decision-makers to topical issues of progressive development of international space law;
- 3) to increase public awareness of the existing and possible challenges and threats in the area of space activities;
- 4) to promote implementation and coordination of international cooperation in space-related fields in line with the 2030 Agenda for Sustainable Development

## The Conference programme will include the most relevant issues of space law such as:

- Promoting responsible, peaceful and safe use of outer space;
- Challenges and threats to the safety of space operations;
- Security and long-term sustainability of outer space activities;
- Ways and means of preserving outer space for peaceful purposes;
- Legal aspects of space debris mitigation and remediation;
- Space resources exploration, exploitation and utilization;
- Space traffic management as part of global space governance;
- Strengthening capacity-building in space law

Two moderators  
and  
up to six panelists  
per session
