UNISPACE +50

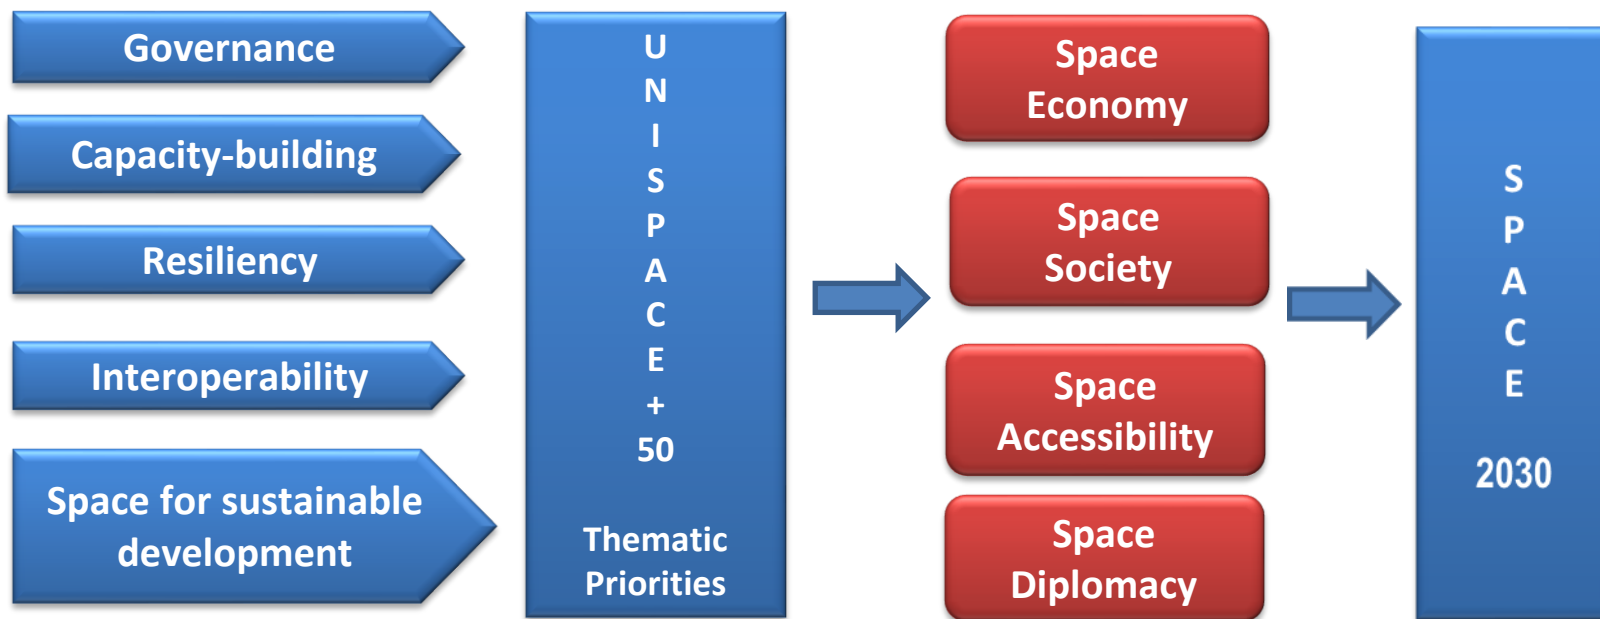

Towards UNISPACE+50 in 2018

20-21 June 2018

2018 marks the 50th anniversary of the first UN Conference on the Exploration and Peaceful Uses of Outer Space (UNISPACE I), held in Vienna in 1968.

UNISPACE+50 will articulate **'Space2030'** - a long-term vision for Space - comprising comprehensive and strategic objectives for the contribution of space activities in addressing overarching, long-term development concerns

Thematic priorities to prepare for UNISPACE+50

1. Global partnership in space exploration and innovation
2. Legal regime of outer space and global space governance: current and future perspectives
3. Enhanced information exchange on space objects and events
4. International framework for space weather services
5. Strengthened space cooperation for global health
6. International cooperation towards low-emission and resilient societies
7. **Capacity-building for the 21st Century.**

TP7: Capacity-building for the 21st century

OBJECTIVES

- **Define new innovative and effective approaches** to overall capacity- building and development needs as a fundamental pillar of global space governance.
- **Strengthen comprehensive capacity-building** and outreach activities of the Office for Outer Space Affairs.
- **Develop infrastructure** for cross-sectoral and integrated applications, with combined scientific, technical, legal and policy outputs.
- **Enhance existing partnerships and forge new ones** to strengthen and deliver targeted capacity-building and technical advisory activities based on needs assessment.
- **Promote efforts to encourage STEM education, especially for women in developing countries.**

“Space for Women”

- The vision of the Office for Outer Space Affairs is to **bring the benefits of space to humankind**, ensuring that those benefits **reach women and girls**, and that women and girls play an **active and equal role** in space science, technology, innovation and exploration.
- The **use of space technology and applications** for gender equality and the empowerment of women, particularly in the context of **SDG5**.

Space matters when it comes to the right of women to benefit from science and technology and also as a dimension of achieving the SDGs.

Four Pillars to guide Space2030

Space Economy

1. Development of space-derived economic benefits.

Space Society

2. Evolution of society and societal benefits stemming from space-related activities.

Space Accessibility

3. All communities using and benefitting from space technologies.

Space Diplomacy

4. Building partnerships and strengthening international cooperation in space activities.
