

UNISPACE I

1968

Reviewed the progress in space science, technology and applications and called for increased international cooperation, about the benefit of developing nations.

Bit of History

$$E=mc^2$$

$$\sqrt{2}$$

UNISPACE II 1982

How to maintain the outer space for peaceful purposes and prevent an arms race in outer space as essential conditions for peaceful exploration and use of outer space.

how many people have fly to space?

#60

UNISPACE III 1982

Created a blueprint for the peaceful uses of outer space in the 21st century.

UNISPACE II & III

How many women participated in these conferences?

What was their participation?

Now, Space FOR Women

A woman is 21 per cent less likely to own a mobile phone than a man, and the divide is similar for Internet access.

The possibilities of scientific and technological progress is almost limitless, yet women and girls are sorely missing in these fields, particularly as a creators and decision-makers in spheres that are transforming our everyday world.

11 February the International Day for Women in Science.

Even in high-paying STEM jobs, women are being shortchanged.

Women in engineering are paid only

82%

of what their male counterparts are paid.

Women in computing are paid only

87%

of what their male counterparts are paid.

MEXICO

Only nine percent of Mexican women under the age of 15 expect to be a scientist or an engineer compared to 27 percent of men of the same age.

WIA MEXICO

In April Mexico launched the chapter of WIA Mexico.

→ increase the leadership capabilities and visibility of women in the Mexican aerospace community.
