Saturn According to Cassini

David Schurr
NASA, Planetary Science Division
June 2017
Cassini Mission To Saturn

ESA Huygens Probe
Launched Oct. 15, 1997

NASA Cassini Orbiter

European Space Agency (ESA) Huygens Probe
Haze clears at an altitude of 60 km.
A New View of Saturn and Earth
Long Lived Hexagonal Jet Stream at north pole

Northern Hurricane

Storm wrapping around the planet

First complete view of Saturn’s north polar hexagon and discovery of giant hurricanes at both poles
Hexagonal Jet Stream at North Pole
North Pole Hurricane
Rings
Saturn’s B Ring
Moons
Saturn’s Moon
Titan
Seasonal Rains Transform Titan's Surface
Enceladus
Thank you!
