

**Meeting hosted by Switzerland on the eve of the 62<sup>nd</sup>  
session of UNCOPUOS in order to discuss**

**Possible further work on the long-term  
sustainability of outer space activities**

**Tuesday 11 June 2019, 9:30-18:00**

**Board Room D, Vienna International Center**

\*\*\*

**Objective of the meeting:** To share views, advance mutual understanding and make progress towards reaching a consensus on topics of possible further work on the long-term sustainability of outer space activities

**Participation:** All delegations to UNCOPUOS are invited to attend the meeting and to participate in the discussion. Political, technical, scientific and legal expertise in delegations is most welcome in order to allow for a multidisciplinary discussion.

**Structure of the programme:** Four topics were selected based on the reactions to the discussion paper<sup>1</sup> circulated by Switzerland during the 58<sup>th</sup> session of the Legal-subcommittee. Each topic will be briefly introduced by experts with scientific, technical, legal and/or policy background. Other topics may be brought by participants. The programme should allow time for substantive discussions.

**Programme**

09:30-09:45	Introduction by the host
09:45-10:45	<b>Topic 1</b> – <i>Options for collaborative information sharing and exchange with the aim of ensuring the safety and sustainability of space operations</i>
10:45-11:15	Coffee break
11:15-12:15	<b>Topic 2</b> – <i>Challenges posed by large constellations</i>
12:15-12:45	Further discussion
12:45-14:00	Lunch break
14:00-15:00	<b>Topic 3</b> – <i>Issues associated with rendezvous and proximity operations, including active debris removal and on orbit servicing activities</i>
15:00-15:15	Coffee break
15:15-16:15	<b>Topic 4</b> – <i>Concepts on international coordination of space traffic</i>
16:15-17:45	Further discussion
17:45-18:00	Conclusions by the host
