Committee on the Peaceful Uses of Outer Space

Information Furnished by States Launching Objects into Orbit or Beyond in Conformity with General Assembly Resolution 1721 B (XVI)

Letter dated 7 May 1962 from the Permanent Representative of the United States of America addressed to the Acting Secretary-General

In accordance with the provisions of paragraphs 1 and 2 of General Assembly resolution 1721 B (XVI), I enclose registration data concerning objects launched into sustained orbit or beyond by the United States. Consistent with my Government's plan to submit such reports on a biweekly basis, as stated in my letter of 5 March, the attached information is presented in two parts, each covering a two-week period.

With these additions and deletions to the record and corrections to our previous report for 13 March 1962, you will have received for the Committee on the Peaceful Uses of Outer Space and for the Public Registry a complete registry of all United States space vehicles and associated objects in sustained orbit or space transit as of 27 March and 10 April 1962.

(Signed) Adlai E. Stevenson

62-10544 /...
REGISTRATION DATA FOR U.S. SPACE LAUNCHES

The following report supplements the registration data for US space launches as of 1200Z on 27 March 1962.

There were no additional United States space vehicles or associated objects in sustained orbit or space transit.

The following object was no longer in orbit as of 1200Z on 27 March 1962:

    1962 Epsilon 1    Decayed on 21 March 1962

NOTE: The following revisions should be made in the report of 13 March 1962:

1. The launch vehicle listed for 1962 Zeta 1 and 2 should be changed to Thor Delta.

2. The data for the decay of 1962 Delta 1 should be changed to 4 March 1962.
The following report supplements the registration data for US space launches as of 1200Z on 10 April 1962:
