Advance Screening of

THE MARTIAN

7 October 2015, 19:30

In cooperation with the Austrian Space Forum

and the Austrian Ministry for Transport, Innovation and Technology

During a manned mission to Mars, Astronaut Mark Watney (Matt Damon) is presumed dead after a fierce storm and left behind by his crew. But Watney survived and finds himself stranded and alone on the hostile planet. With only meagre supplies, he must draw upon his ingenuity, wit and spirit to subsist and find a way to signal to Earth that he is alive. Millions of miles away, NASA and a team of international scientists work tirelessly to bring "the Martian" home, while his crewmates plot a daring, if not impossible, rescue mission.

Based on a best-selling novel by ANDY WEIR, and directed by RIDLEY SCOTT.
