

**Committee on the Peaceful
Uses of Outer Space****Information furnished in conformity with the Convention
on Registration of Objects Launched into Outer Space****Note verbale dated 4 October 2007 from the Permanent Mission of
the Russian Federation to the United Nations (Vienna) addressed
to the Secretary-General**

The Permanent Mission of the Russian Federation to the United Nations (Vienna) presents its compliments to the Secretary-General of the United Nations and, in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit registration data on space launches by the Russian Federation for July 2007 and also on the space objects that ceased to exist during that period (see annex).

Registration data on space launches by the Russian Federation for July 2007*

1. In July 2007, there were no launches of space objects belonging to the Russian Federation.
2. In July 2007, the Russian Federation launched the following space objects on behalf of foreign clients:

On 2 July 2007, a German SAR-Lupe remote Earth-sensing satellite, designed to perform tasks on behalf of the Ministry of Defence of Germany, was launched into Earth orbit by a Kosmos-3M carrier rocket from the Plesetsk launch site;

On 7 July 2007, the United States communications satellite DirecTV-10 was launched into Earth orbit by a Proton-M carrier rocket with a Breeze-M booster from the Baikonur launch site.
3. As at 2400 hours Moscow time on 31 July 2007, no space objects belonging to the Russian Federation had been found to have ceased to exist in Earth orbit in July 2007.

* The registration data are reproduced in the form in which they were received.
