General Assembly

Distr. GENERAL

A/RES/49/34 30 January 1995

Forty-ninth session Agenda items 76 and 147

## RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the Special Political and Decolonization Committee (Fourth Committee) (A/49/618)]

49/34. International cooperation in the peaceful uses of outer space, including the question of the review of the Agreement Governing the Activities of States on the Moon and Other Celestial Bodies

## The General Assembly,

Recalling its resolution 48/39 of 10 December 1993,

<u>Deeply convinced</u> of the common interest of mankind in promoting the exploration and use of outer space for peaceful purposes and in continuing efforts to extend to all States the benefits derived therefrom, and also of the importance of international cooperation in this field, for which the United Nations should continue to provide a focal point,

<u>Reaffirming</u> the importance of international cooperation in developing the rule of law, including the relevant norms of space law and their important role in international cooperation for the exploration and use of outer space for peaceful purposes,

Concerned about the possibility of an arms race in outer space,

<u>Recognizing</u> that all States, in particular those with major space capabilities, should contribute actively to the goal of preventing an arms race in outer space as an essential condition for the promotion of international cooperation in the exploration and use of outer space for peaceful purposes, A/RES/49/34 Page 2

Considering that space debris is an issue of concern to all nations,

Noting the progress achieved in the further development of peaceful space exploration and application as well as in various national and cooperative space projects, which contribute to international cooperation, and the importance of further international cooperation in this field,

<u>Taking note</u> of the report of the Secretary-General  $\underline{1}/$  on the implementation of the recommendations of the Second United Nations Conference on the Exploration and Peaceful Uses of Outer Space,  $\underline{2}/$ 

<u>Having considered</u> the report of the Committee on the Peaceful Uses of Outer Space on the work of its thirty-seventh session,  $\underline{3}/$ 

1. <u>Endorses</u> the report of the Committee on the Peaceful Uses of Outer Space;

2. <u>Invites</u> States that have not yet become parties to the international treaties governing the uses of outer space  $\underline{4}$ / to give consideration to ratifying or acceding to those treaties;

3. <u>Notes</u> that, at its thirty-third session, the Legal Subcommittee of the Committee on the Peaceful Uses of Outer Space, in its working groups, continued its work as mandated by the General Assembly in its resolution 48/39; 5/

4. <u>Endorses</u> the recommendations of the Committee that the Legal Subcommittee, at its thirty-fourth session, taking into account the concerns of all countries, particularly those of developing countries, should:

<u>1</u>/ A/49/280.

2/ See <u>Report of the Second United Nations Conference on the</u> Exploration and <u>Peaceful Uses of Outer Space</u>, Vienna, 9-21 August 1982 and corrigenda (A/CONF.101/10 and Corr.1 and 2).

<u>3</u>/ <u>Official Records of the General Assembly, Forty-ninth Session,</u> <u>Supplement No. 20</u> (A/49/20).

<u>4</u>/ Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies (resolution 2222 (XXI), annex); Agreement on the Rescue of Astronauts, the Return of Astronauts and the Return of Objects Launched into Outer Space (resolution 2345 (XXII), annex); Convention on International Liability for Damage Caused by Space Objects (resolution 2777 (XXVI), annex); Convention on Registration of Objects Launched into Outer Space (resolution 3235 (XXIX), annex); Agreement Governing the Activities of States on the Moon and Other Celestial Bodies (resolution 34/68, annex).

5/ See Official Records of the General Assembly, Forty-ninth Session, Supplement No. 20 (A/49/20), sect. II.C.  $(\underline{a})$  Continue its consideration of the question of early review and possible revision of the Principles Relevant to the Use of Nuclear Power Sources in Outer Space;  $\underline{6}/$ 

(b) Continue, through its working group, its consideration of matters relating to the definition and delimitation of outer space and to the character and utilization of the geostationary orbit, including consideration of ways and means to ensure the rational and equitable use of the geostationary orbit without prejudice to the role of the International Telecommunication Union;

(<u>c</u>) Continue, through its working group, its consideration of the legal aspects related to the application of the principle that the exploration and utilization of outer space should be carried out for the benefit and in the interests of all States, taking into particular account the needs of developing countries;

5. <u>Also endorses</u> the recommendation of the Committee that the Legal Subcommittee, at its thirty-fourth session, should suspend consideration in its working group of the Principles Relevant to the Use of Nuclear Power Sources in Outer Space pending the results of the work in the Scientific and Technical Subcommittee, without prejudice to the possibility of reconvening its working group on that item, if in the opinion of the Legal Subcommittee sufficient progress was made in the Scientific and Technical Subcommittee at its session in 1995 to warrant the reconvening of the working group;

6. <u>Notes</u> that deliberations on the question of the geostationary orbit have been undertaken by the Legal Subcommittee as reflected in its report, 5/ on the basis of recent proposals which might provide a new and enhanced basis for future work;

7. <u>Endorses</u> the recommendations and agreements concerning the organization of work in the Legal Subcommittee;

8. <u>Also endorses</u> the recommendation of the Committee that the Chairman of the Legal Subcommittee should, at its thirty-fourth session, conduct extensive, open-ended informal consultations with all members of the Subcommittee on the working methods and agenda of the Legal Subcommittee, including the consideration of possible additional items for inclusion on the agenda as outlined in the report of the Committee; <u>7</u>/

6/ See resolution 47/68.

7/ See Official Records of the General Assembly, Forty-ninth Session, Supplement No. 20 (A/49/20), sect. II., E.5 and annex. 9. <u>Notes</u> that the Scientific and Technical Subcommittee of the Committee on the Peaceful Uses of Outer Space, at its thirty-first session, continued its work as mandated by the General Assembly in its resolution 48/39; 8/

10. <u>Welcomes</u> the decision of the Committee to consider the matter of space debris, and the addition of a new item, entitled "Space debris", on the agenda of the Scientific and Technical Subcommittee;

11. <u>Notes</u> that under that item the Scientific and Technical Subcommittee considered scientific research relating to space debris, including relevant studies, mathematical modelling and other analytical work on the characterization of the space debris environment;

12. <u>Endorses</u> the agreement of the Committee that, at its thirty-second session, the Scientific and Technical Subcommittee should focus its attention on the acquisition and understanding of data on the characteristics of the space debris environment, and that the Subcommittee should also at its thirty-second session develop a continuing, deliberate, specific multi-year plan for its work on this agenda item;

13. <u>Also endorses</u> the recommendations of the Committee that the Scientific and Technical Subcommittee, at its thirty-second session, taking into account the concerns of all countries, particularly those of developing countries, should:

- (<u>a</u>) Consider the following items on a priority basis:
- (i) United Nations Programme on Space Applications and the coordination of space activities within the United Nations system;
- (ii) Implementation of the recommendations of the Second United Nations Conference on the Exploration and Peaceful Uses of Outer Space; <u>2</u>/
- (iv) Use of nuclear power sources in outer space;
- (v) Space debris;
- (b) Consider the following items:
- Questions relating to space transportation systems and their implications for future activities in space;
- (ii) Examination of the physical nature and technical attributes of the geostationary orbit and of its utilization and applications, including, <u>inter alia</u>, in the field of space communications, as well as other questions relating to space communications developments, taking particular account of the needs and interests of developing countries;

<sup>8/</sup> Ibid., sect. II.B.

(iii) Matters relating to life sciences, including space medicine;

- (iv) Progress in national and international space activities related to the Earth's environment, in particular progress in the geospherebiosphere (global change) programme;
- (v) Matters relating to planetary exploration;
- (vi) Matters relating to astronomy;
- (vii) The theme fixed for special attention at the 1995 session of the Scientific and Technical Subcommittee: "Application of space technology for education, with particular emphasis on its use in developing countries"; the Committee on Space Research and the International Astronautical Federation, in liaison with Member States, should be invited to arrange a symposium, with as wide a participation as possible, to be held during the first week of the Subcommittee's session, to complement discussions within the Subcommittee on the special theme;

14. <u>Considers</u>, in the context of paragraph 13  $(\underline{a})$  (ii) above, that it is particularly urgent to implement the following recommendations:

 $(\underline{a})$  All countries should have the opportunity to use the techniques resulting from medical studies in space;

 $(\underline{b})$  Data banks at the national and regional levels should be strengthened and expanded and an international space information service should be established to function as a centre of coordination;

 $(\underline{c})$  The United Nations should support the creation of adequate training centres at the regional level, linked, whenever possible, to institutions implementing space programmes; necessary funding for the development of such centres should be made available through financial institutions;

 $(\underline{d})$  The United Nations should organize a fellowship programme through which selected graduates or postgraduates from developing countries should get in-depth, long-term exposure to space technology or applications; it is also desirable to encourage the availability of opportunities for such exposure on other bilateral or multilateral bases outside the United Nations system;

15. <u>Endorses</u> the recommendation of the Committee that the Scientific and Technical Subcommittee should reconvene, at its thirty-second session, the Working Group of the Whole to Evaluate the Implementation of the Recommendations of the Second United Nations Conference on the Exploration and Peaceful Uses of Outer Space, to continue its work;

16. <u>Also endorses</u> the recommendations of the Working Group of the Whole of the Scientific and Technical Subcommittee, as endorsed by the Committee and as contained in the report of the Working Group of the Whole; 9/

<sup>9/</sup> A/AC.105/571, annex II.

A/RES/49/34 Page 6

17. <u>Decides</u> that, during the thirty-second session of the Scientific and Technical Subcommittee, the Working Group on the Use of Nuclear Power Sources in Outer Space should be reconvened, and invites Member States to report to the Secretary-General on a regular basis with regard to national and international research concerning the safety of nuclear-powered satellites;

18. <u>Endorses</u> the United Nations Programme on Space Applications for 1995, as proposed to the Committee by the Expert on Space Applications; <u>10</u>/

19. <u>Emphasizes</u> the urgency and importance of implementing fully the recommendations of the Second United Nations Conference on the Exploration and Peaceful Uses of Outer Space;

20. <u>Reaffirms its approval</u> of the recommendation of the Conference regarding the establishment and strengthening of regional mechanisms of cooperation and their promotion and creation through the United Nations system;

21. <u>Expresses its appreciation</u> to all Governments that have made or expressed their intention to make contributions towards carrying out the recommendations of the Conference;

22. <u>Invites</u> all Governments to take effective action for the implementation of the recommendations of the Conference;

23. <u>Requests</u> all organs, organizations and bodies of the United Nations system and other intergovernmental organizations working in the field of outer space or on space-related matters to cooperate in the implementation of the recommendations of the Conference;

24. <u>Invites</u> the Secretary-General to report to the General Assembly at its fiftieth session on the implementation of the recommendations of the Conference;

25. <u>Notes</u> that, pursuant to its request in paragraph 22 of resolution 48/39, the Scientific and Technical Subcommittee, at its thirty-first session, discussed the possibility of holding a third United Nations Conference on the Exploration and Peaceful Uses of Outer Space and that the Committee continued these discussions at its thirty-seventh session with a view to promoting an early conclusion on the matter by the Committee;

26. <u>Agrees</u> that a third United Nations Conference on the Exploration and Peaceful Uses of Outer Space could be convened in the near future, and also agrees that, prior to recommending a date for the conference, there should be a consensus recommendation on the agenda, venue and funding of the conference;

27. <u>Recommends</u> that the Scientific and Technical Subcommittee, at its thirty-second session, conduct a thorough analysis and define an agenda for such a conference, and agrees that the Subcommittee should discuss a broad range of themes and subjects that could be refined into a sharply focused and detailed agenda and should also continue its examination of other means of achieving the goals set for such a conference;

<u>10</u>/ A/AC.105/555, sect. I.

28. <u>Invites</u> interested Member States to submit additional ideas and proposals for a third United Nations Conference on the Exploration and Peaceful Uses of Outer Space in time for their consideration at the thirtysecond session of the Scientific and Technical Subcommittee, and endorses the Committee's request that the Secretariat compile a document, in time for consideration at the thirty-second session of the Subcommittee, containing the various ideas regarding the agenda and organization for the conference submitted to the Committee;

29. <u>Agrees</u> that the discussions to be held by the Scientific and Technical Subcommittee should provide the basis for a prompt decision by the Committee on a recommendation to the General Assembly regarding the agenda, timing, funding and organization of such a conference;

30. <u>Recognizes</u> the contribution of the First Asia-Pacific Conference on Multilateral Cooperation in Space Technology and Applications, held at Bangkok in 1994, the Ministerial Conference on Space Application for Development, held at Beijing in 1994, and the second session of the regional Asia-Pacific Space Agency Forum, held at Tokyo in 1994, towards promoting regional cooperation in space activities, as well as the meetings mentioned in paragraph 13 of the report of the Secretary-General <u>1</u>/ on the implementation of the recommendations of the Second United Nations Conference on the Exploration and Peaceful Uses of Outer Space; and calls upon the regional commissions to support those initiatives;

31. <u>Recommends</u> that more attention be paid to all aspects related to the protection and the preservation of the outer space environment, especially those potentially affecting the Earth's environment;

32. <u>Considers</u> that it is essential that Member States pay more attention to the problem of collisions of space objects, including nuclear power sources, with space debris, and other aspects of space debris, calls for the continuation of national research on this question, for the development of improved technology for the monitoring of space debris, and for the compilation and dissemination of data on space debris, and also considers that, to the extent possible, information thereon should be provided to the Scientific and Technical Subcommittee;

33. <u>Takes note with interest</u> of the analytical report prepared by the Secretariat <u>11</u>/ containing updated information on the implementation of Agenda 21 <u>12</u>/ by the United Nations system, information on activities of the Programme on Space Applications related to environment and development, and suggestions as to how the activities of the Programme on Space Applications in this area might be expanded;

<u>11</u>/ A/AC.105/547/Add.1.

<u>12</u>/ <u>Report of the United Nations Conference on Environment and</u> <u>Development, Rio de Janeiro, 3-14 June 1992</u> (A/CONF.151/26/Rev.1 (Vol. I, Vol. I/Corr.1, Vol. II, Vol. III and Vol. III/Corr.1)) (United Nations publication, Sales No. E.93.I.8 and corrigenda), vol. I: <u>Resolutions adopted</u> by the Conference, resolution 1, annex II. A/RES/49/34 Page 8

34. <u>Endorses</u> the agreement of the Committee that it would request the Commission on Sustainable Development to bring to the attention of its members the valuable role of space technology and applications in implementing sustainable development programmes;

35. <u>Urges</u> all States, in particular those with major space capabilities, to contribute actively to the goal of preventing an arms race in outer space as an essential condition for the promotion of international cooperation in the exploration and uses of outer space for peaceful purposes;

36. <u>Emphasizes</u> the need to increase the benefits of space technology and its applications and to contribute to an orderly growth of space activities favourable to the socio-economic advancement of humanity, in particular that of the people of the developing countries;

37. <u>Takes note</u> of the views expressed during the thirty-seventh session of the Committee and during the forty-ninth session of the General Assembly concerning ways and means of maintaining outer space for peaceful purposes;

38. <u>Requests</u> the Committee to continue to consider, as a matter of priority, ways and means of maintaining outer space for peaceful purposes and to report thereon to the General Assembly at its fiftieth session;

39. <u>Also requests</u> the Committee to continue to consider at its thirtyeighth session its agenda item entitled "Spin-off benefits of space technology: review of current status";

40. <u>Requests</u> the specialized agencies and other international organizations to continue and, where appropriate, enhance their cooperation with the Committee and to provide it with progress reports on their work relating to the peaceful uses of outer space;

41. <u>Welcomes</u> the report of the Secretary-General on international cooperation in space activities for enhancing security in the post-cold-war era <u>13</u>/ and calls upon the competent bodies to take into account its contents;

42. <u>Takes note of</u> the recommendation of the Committee that the General Assembly, at its current session, in considering whether to revise the Agreement Governing the Activities of States on the Moon and Other Celestial Bodies, <u>14</u>/ should take no action at the present time;

43. <u>Requests</u> the Committee to continue its work, in accordance with the present resolution, to consider, as appropriate, new projects in outer space activities and to submit a report to the General Assembly at its fiftieth session, including its views on which subjects should be studied in the future.

83rd plenary meeting 9 December 1994

<u>13</u>/ A/48/221.

14/ Resolution 34/68, annex.
