Davila of the United States of America, on “CORONAS – F mission: results of the Sun and solar-terrestrial relations investigations” by Mr. V. Kuznetsov of the Russian Federation, and on “Russian Federation satellite experiments for solar-terrestrial physics” by Mr. S. Klimov of the Russian Federation.

WORKING GROUP OF THE WHOLE

Morning*/- (Closed) Conference Room III
Afternoon**

-
- * Following the adjournment of the 652nd meeting.
 - ** Following the adjournment of the Working Group on the Use of Nuclear Power Sources in Outer Space.

**WORKING GROUP ON THE USE OF
NUCLEAR POWER SOURCES IN OUTER SPACE**

3.00 p.m.* (Closed) Conference Room III

-
- * To adopt its report.

SUMMARY OF SCHEDULED MEETINGS

650th meeting

Space debris [8]

The Subcommittee continued its consideration of this item with a statement by the representative of Japan.

Space-system-based telemedicine [10]

The Subcommittee continued its consideration of this item with statements by the representatives of the United States of America, Canada, China, India, Argentina and Chile.

Near-Earth objects [11]

The Subcommittee continued its consideration of this item with statements by the representatives of the United States of America, Italy and United Kingdom.

Special Presentations

Presentations were made by the representative of the United States of America on “Terrestrial benefits of advanced healthcare technologies developed and used by the National Aeronautics and Space Administration”, by the representative of the Russian Federation on “The international seminar ‘Application of space methods for studying the problems of human health, potentially dangerous and catastrophic phenomena with the use of the universal micro satellite platforms’”, and by the observer of the Association of Space Explorers (ASE) on “Near-Earth object deflection: an international challenge”.

**WORKING GROUP ON THE USE OF
NUCLEAR POWER SOURCES IN OUTER SPACE**

The Working Group held a closed meeting in the morning.

651st meeting

WORKING GROUP ON SPACE DEBRIS

The Working Group held a closed meeting in the afternoon.

Space debris [8]

The Subcommittee suspended its consideration of this item with a report of the Chairman of the Working Group on Space Debris on the work of the Working Group.

Space-system-based telemedicine [10]

The Subcommittee concluded its consideration of this item.

Near-Earth objects [11]

The Subcommittee continued its consideration of this item with a statement by the observer of the Association of Space Explorers (ASE).

International Heliophysical Year 2007 [13]

The Subcommittee began its consideration of this item.

Special Presentations

Presentations were made by the representative of the United Kingdom on “Near-Earth objects related activities in the United Kingdom”, by the representative of the Republic of Korea on “Near-Earth object research activities in the Republic of Korea: 2005 progress report”, and by the observer of the International Space University (ISU) on “The need for an international Near-Earth Object Committee”.

**WORKING GROUP ON THE USES OF
NUCLER POWER SOURCES IN OUTER SPACE**

The Working Group held a closed meeting in the afternoon.

WORKING GROUP OF THE WHOLE

The Working Group held a closed meeting in the afternoon.
