**Committee on the Peaceful
Uses of Outer Space****Scientific and Technical Subcommittee****Fifty-first session**

Vienna, 10-21 February 2014

Item 6 of the provisional agenda*

**Space technology for socioeconomic development in the
context of the United Nations Conference on Sustainable
Development and the post-2015 development agenda****New web page on Space and Development**

1. At its fifty-sixth session, the Committee on the Peaceful Uses of Outer Space agreed to rename the agenda item of the Scientific and Technical Subcommittee on Implementation of the recommendations of the Third United Nations Conference on the Exploration and Peaceful Uses of Outer Space (UNISPACE III) to “Space technology for socioeconomic development in the context of the United Nations Conference on Sustainable Development and the post-2015 development agenda”. The Committee further agreed that the item should be closely interlinked with the new agenda item of the Committee on “Space and sustainable development”.
2. The Committee encouraged member States to liaise nationally with their respective authorities and departments responsible for the intergovernmental processes related to the Conference and the post-2015 development agenda in order to promote the inclusion in those processes of the relevance of space science and technology applications and the use of space-derived geospatial data.
3. The Committee requested the Secretariat to establish a web page dedicated to the theme “space and sustainable development”. In meeting the request of the Committee, the Secretariat established a web page containing documents relating to activities by the Office for Outer Space Affairs on socioeconomic development, reports of the Secretary-General on Coordination of space-related activities within the United Nations system: directions and anticipated results, and special reports of the Inter-Agency Meeting on Outer Space Activities (UN-Space). The web page also contains documents and information related to the United Nations Conference on Sustainable Development and the post-2015 development agenda, including, inter

* A/AC.105/C.1/L.332.

alia, contributions of the Committee to the Commission on Sustainable Development, the outcome document of the United Nations Conference on Sustainable Development (Rio+20), information on the work of the High-level Political Forum, Open Working Group on Sustainable development goals (SDGs), High-Level Panel of Eminent Persons on the Post-2015 Development Agenda and the United Nations System Task Team on the Post-2015 United Nations Development Agenda (UNTT). To facilitate the ease of navigation, the documents on the web page are grouped by four categories.

4. The web page is located at <http://unoosa.org/oosa/en/COPUOS/sustdev.html> and is accessible from the home page of the website of the Office for Outer Space Affairs. The content of the page is provided below.

Documents relating to Space and Socioeconomic Development in the context of Rio+20 and the Post-2015 Development Agenda
