**Committee on the Peaceful
Uses of Outer Space**
Legal Subcommittee
Fifty-first session
Vienna, 19 - 30 March 2012

Education Opportunities in Space Law: a Directory

Note by the Secretariat

In response to the recommendation of the Legal Subcommittee at its fiftieth session in 2011, the Office for Outer Space Affairs updated the Directory of education opportunities in space law.

The Directory contains information on the respective institutions' areas of specialization, the educational programmes offered, the facilities available, the prerequisite qualifications, financial information, fellowship opportunities and opportunities for international cooperation, as well as reference to educational material easily available on the internet. Addresses and contact points for further information are included.

The updated Directory is also being made available on the website of the Office for Outer Space Affairs (www.unoosa.org).

V.12-51953 (E)

EDUCATION OPPORTUNITIES IN SPACE LAW
A directory

2012 edition

Introduction

The increasing number of States involved in space activities has emphasized the need for effective laws and policies on space activities, not just on an international level but also on the national level. The successful operation of space law, policies and institutions in a country relies on the presence of suitable professionals. Institutions that address the subject of space law and policy play an important role in promoting national expertise and capacity in this field.

In response to the recommendation of the Legal Subcommittee of the Committee on the Peaceful Uses of Outer Space at its forty-second session, in 2003, the Office for Outer Space Affairs invited a number of institutions to provide the Office with information on their programmes relating to space law. The directory of education opportunities in space law has been compiled based on the information received from those institutions and is updated annually.

The directory contains information on the respective institutions' areas of specialization, the educational programmes offered, the facilities available, the prerequisite qualifications, financial information, fellowship opportunities and opportunities for international cooperation, as well as reference to educational material easily available on the internet. Addresses and contact points for further information have also been included.

For ease of reference the information has been arranged in alphabetical order by country. An effort has been made to present, as accurately as possible, the information provided by the responding institutions. However, programmes frequently change and users of this directory who are interested in a particular programme are urged to contact the institution for current detailed information.

The list of countries and institutions contained in this directory is not exhaustive and has been updated on the basis of the information received in the past year. The Office welcomes additional and/or updated information from Member States and education institutions teaching space law or space law related subjects and sources of information.

It is hoped that this directory will be of assistance and that it will promote co-operation among Member States and education institutions in relation to space law. In particular, it is hoped that information on education opportunities will assist developing countries in establishing indigenous capabilities in space law.

Comments, queries and information with respect to this directory, including additional submissions or updated information, should be sent to the following address:

Website: www.ub.edu.ar
E-mail: maureenw777@yahoo.co.uk

Contact Person: Prof. Maureen Williams, swilliams@derecho.uba.ar or maureenw777@yahoo.co.uk, Professors Luis Castillo Arganaras, lcastillo@uade.edu.ar, Guillermo Duberti, guillermo.duberti@gmail.com, Secretary: Mrs Elena Cavanagh, cavanagh@ub.edu.ar

ACADEMIC PROGRAMMES

Degrees offered in Space Law or related to space law: Masters Degree in International Relations. In Professor William's subjects (and her team) a special emphasis is given to Space Law. In two of the subjects included in this programme, namely Public International Law & Human Rights, and International Organizations & International Environmental Law, 40 % of the syllabus, plus a moot court, are currently dealing with space law. This turns out to be an effective method for creating awareness on the matter.

AUSTRALIA

Contact Person: Ms. Maria d'Amico, Prof. Dr. Ram Jakhu

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Graduate Certificate in Air and Space Law; Master of Laws (LL.M) (thesis and non-thesis); Doctor of Civil Law (D.C.L.).
2. **Courses offered in space law or related to space law:** General Private International Air Law (3 credits); Public International Air Law (3 credits); Space Law: General Principles (3 credits); Comparative Air Law (3 credits); Government Regulation of Air Transport (3 credits); Law of Space Applications (3 credits); Government Regulation of Space Activities (3 credits); Airline Business and Law (3 credits).
3. (a) **Number of faculty members in the programme:** 14 (full-time, part-time and visiting)

(b) **Number of students in the programme:** 32

4. **Duration of the programme:**

Graduate Certificate in Air and Space Law: awarded after at least one term (4 months) of residence and on completion of a minimum of 15 credits of course work.

LL.M. in Air and Space Law (thesis): a 45-credit research-intensive programme with a minimum duration of three academic terms (full-time).

LL.M. in Air and Space Law (non-thesis): a 45-credit specialized graduate-level coursework and in-depth research programme, completed in three academic terms (full-time).

Doctor of Civil Law: a research degree. The principal basis for evaluation is a doctoral thesis, which must constitute an original contribution to legal scholarship. Candidates who enter the program in the first year, called DCL1, must follow a program of at least three years' residence in the Faculty. Residence refers to the numbers of terms or years students must be registered on a full-time basis to complete their program. Students holding an LL.M. with thesis are usually admitted into DCL2, which means that the minimum residence requirement is reduced to two years of study beyond the Master's degree.

5. **Language of instruction:** English

6. **Admission Standards:** Language requirements: applicants must provide proof of competence in oral and written English. An official test score is required unless (a) the applicant's mother tongue is English, (b) the applicant has completed an undergraduate degree from a recognized institution where English is the language of instruction or (c) the applicant has obtained (or is about to obtain) an undergraduate or graduate degree from a recognized institution in Canada or the United States of America (Anglophone or francophone). Applicants must achieve a minimum TOEFL score of 550 (213 on the computer-based test) or 6.5 in the IELTS, a mark of 85% or higher on the MELAB, a grade of "B" (Good) or higher on the University of Cambridge ESOL Certificate in Advanced English (CAE) or a grade of "C" (Pass) or higher on the Certificate of Proficiency in English (CPE); an overall grade of at least "Merit Pass" on the Edexcel London Test of English – Level 4 or an overall grade of at least "Pass" on the Level 5; or the McGill Certificate of Proficiency in English or McGill Certificate of Proficiency – English for Professional Communication: Certificate of Proficiency awarded. Students can write essays, examinations and theses in French, even where the course is taught in English.

Candidates for admission must possess a Bachelor of Laws degree or an equivalent law degree from an accredited university with a cumulative grade point average of 3.0/4.0, or its equivalent (upper second class). However, applicants for the Graduate Certificate in Air and Space Law who do not hold a law degree must fulfil the following two requirements: Have an undergraduate university degree in another discipline, and Possess sufficient professional experience in the fields of Air and/or Space Law to compensate for the lack of a law degree (as determined by the Graduate Admissions Committee).

Only applicants demonstrating excellent academic ability will be considered for admission to the doctoral programme. Candidates must hold both a Bachelor of Laws degree and a Master of Laws degree. Admission to the D.C.L. programme occurs only when the candidate has completed a graduate law degree with thesis at McGill or at another university, and; the Graduate Admissions Committee is satisfied that the quality of his or her previous research is sufficient to justify admission to a doctoral programme. The latter usually requires review of the completed Master's thesis. Applicants not holding a McGill Master's degree or its equivalent are generally not admitted directly to the D.C.L. programme, but are required first to complete the LL.M. degree with distinction.

7. **Cost of the programme:** see:
<http://www.mcgill.ca/student-accounts/fees/tuition/gradfees/ma/>
- (a) **Tuition:** Graduate Certificate: one term of full-time study is \$1,828 Canadian dollars for Quebec residents (and French citizens), \$3,594 Canadian dollars for Canadian (Non-Quebec residents) and \$7,748 Canadian dollars for International Students; Master degree: three terms of full time study (minimum) are \$5,482 Canadian dollars for Quebec residents (and French citizens), \$10,781 Canadian dollars for Canadian (non-Quebec residents) and \$23,245 Canadian dollars for international students; Doctoral Degree: two three years of full-time study are \$3,655 Canadian dollars per year for Quebec residents, Canadian non-Quebec residents and French citizens and \$14,121 Canadian dollar per year for international students. However, international doctoral students receive a MIDAs (McGill International Doctoral Award) which brings their tuition down to the equivalent of Quebec tuition.
- (b) **Textbooks:** around \$800 CAN
- (c) **Room and board:** \$ 800 CAN per month
- (d) **Other relevant costs:** Transportation (Public): \$ 450-825 CAN; Clothing: \$ 500 CAN; Personal Expenses: (including laundry, toiletries, etc.): \$ 2400 CAN; Compulsory Health Insurance: \$ 591 CAN. Additional expenses for dependents are estimated as follows: 1 dependent - \$ 1,698 CAN; Family - \$ 3,225 CAN.
*Subject to change.
8. **Availability of fellowships/scholarships for foreign students:** Yes
See: <http://www.mcgill.ca/law-studies/funding/>
9. **Other relevant information:** The Institute of Air and Space Law is situated in Montreal, which is an extraordinarily cosmopolitan city. It is bilingual and multi-cultural. It is bi-legal as well, an area where the civil and common law converge. The Institute has been teaching Air and Space law for over 50 years and its Space Law Program is the most extensive and advanced in the world. Today, the Institute has more than 800 alumni sprinkled across more than 120 countries around the world. In addition, the Institute has a history of 25 years of the *Annals of Air & Space Law*, a highly respected and valuable compendium of important research.

ACADEMIC PROGRAMMES

1. **Courses offered in space law or related to space law:** ECSL Summer Course on Space Law and Policy
2. (a) **Number of faculty members in the programme:** about 10
(b) **Number of students in the programme:** about 40
3. **Duration of the programme:** 2 weeks
4. **Language of instruction:** English
5. **Admission Standards:** upon evaluation of the academic background and career plans.
6. **Cost of the programme:**

- (a) **Tuition:** 200 Euro
 (b) **Textbooks:** covered
 (c) **Room and board:** covered
 (d) **Other relevant costs:** lunches
7. **Other relevant information:** This Summer Course organized by ECSL with the support of a hosting university (1992 : Messina, Italy ; 1993 : Toulouse, France ; 1994 : Granada, Spain ; 1995 : Aberdeen, United Kingdom ; 1996 : Leiden, The Netherlands ; 1997 : Rovaniemi, Finland ; 1998 : Brest, France ; 1999: Geneva, Switzerland ; 2000 : Cologne, Germany ; 2001 : Nice, France ; 2002 : La Rochelle, France ; 2003 : Leuven, Belgium ; 2004 : Graz, Austria ; 2005 : Terni, Italy ; 2006 : Noordwijk, The Netherlands ; 2007 : Noordwijk, The Netherlands; 2008: Genoa, Italy, 2009: Lisbon, Portugal) and the European Space Agency gathers an increasing number of universities. During two weeks, about 40 students attend intensive courses given by professors and practitioners on the international legal framework of space activities (UN Resolutions, space treaties) and on other legal issues in space applications (commercialisation of space activities, telecommunications, remote-sensing, launching states, intellectual property rights, etc). Students have the opportunity to meet practitioners, to learn from their experience, and to visit space industries. The Course's main objective is to stimulate students' interest in this law field and to provide them with a basic, solid knowledge upon which to build up their professional career or their further academic research.

Institut de Droit des Espaces Internationaux et des Télécommunications

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Master in Space Law and Telecommunications Law, Ph.D. in Law-speciality Space Law.
2. **Courses offered in space law or related to space law:** The Master programme is composed of 28 courses representing 395 hours lessons and workshops. The main courses in space law are: International, European and National space law; International, regional and national space institutions; International, regional and national space markets; Intellectual property rights; Competition law; Introduction to space technologies; Comparative Law; Space Business and contract law; Frequencies Management; Financing Space Projects; Risk management; Space geopolitics; Export Control; Military uses of Outer Space; Remote sensing, environment and territory; Satellite Television and Internet law and practice; Law and management of satellite positioning. Other courses deal with telecommunication law: Regulation of telecommunications market; International telecommunications law; Broadcasting Law; Internet and e-business law. The Institute organizes professional visits in France and in Europe with the support of its partners. Ph.D. students may attend Master classes and conferences.

3. (a) **Number of faculty members in the programme:** The academic team is composed of 12 Professors and 40 practitioners representing space and telecommunications companies and institutions.
(b) **Number of students in the programme:** Master maximum of 24 students
4. **Duration of the programme:** Master: 12 months (6 months in Paris and 6 months of internship in France or abroad); Ph.D. 3 years (not necessarily in Paris).
5. **Language of instruction:** Master: French and English; Classes are in French or in English; Handouts/papers are in French or in English; Exams can be taken in French or in English; Ph.D: in French or in English.
6. **Admission Standards:** European Master in law / LL.M or equivalent degree (at least 4 years studies in law) ; any other diploma in political sciences, economics, management, sciences or professional experiences that may be considered as equivalent by the Admission Commission. Ph.D.: Master or LL.M (Master in Law).
7. **Cost of the programme:**
(a) **Tuition:** the French government covers the tuition fees for all students without restriction of nationality. Students only have to meet registration fees and health insurance (around 600 Euro per year)
(b) **Textbooks:** max 100 Euro
(c) **Room and board:** Students houses are available from 150 Euro/month. Students can also find accommodation in the *Cité Universitaire de Paris* which brings together 37 French and International hall of residence in a 35 hectare park located in the south of Paris from 400 Euro/month.
8. **Other relevant costs:** other living expenses in Paris
9. (a) **Availability of fellowships/scholarships for foreign students:** Yes
(b) **If YES, number of fellowships/scholarships available:** Scholarships allocated by the President of the University; Scholarships allocated by the French Ministry of Education; Scholarships allocated by the French Ministry of Foreign Affairs. The number of scholarships allocated depends on the quality of the application filed (between 2 to 5 per year).

Contact Person: Dr. Sara Cavelli, General Director

ACADEMIC PROGRAMMES

1. **Courses offered in space law or related to space law:** The Italian Society for International Organization with the Italian Space Agency (ASI) and the Institute of International Legal Studies of the National Council of Research (CNR) offers the third edition of the Master in Space Institutions and Policies. The course aims at providing specialized preparation and professional training in the field of Space Institutions and policies, in particular, in the legal, political, and economic disciplines related to the exploration and the use of outer- space for peaceful uses.
2. (a) **Number of faculty members in the programme:** 45
(b) **Number of students in the programme:** 25 students
3. **Duration of the programme:** The course foresees a total of 200 hours of face to face lessons and 200 hours of individual study. During the course there will be progress tests and then a final exam. The course lasts 5 months – from 14 January to 12 July 2011. The course will take place two afternoons a week for a total of 8 hours a week. In addition the students will have the opportunity to visit national space facilities and industries. A significant part of the program will be dedicated to European Space Policy, with particular emphasis on the role of the European Space Agency (ESA) and the European programs, such as GALILEO and GMES.
Training Modules: Module 1 : Technical and Scientific Section; Module 2 : Space Law Section; Module 3 : Political and International Relations Section; Module 4 : Socio-Economic Section; Module 5 : Industrial Section. At the end of the course the students will make a three months training within International Organizations, National or International Institutions and private Companies.
Supervising Board: Prof. Sergio MARCHISIO, Director of ISGI-CNR, Chairman of the European Centre for Space Law (ECSL) of ESA; Dr. Gabriella ARRIGO, the Official Responsible for International Extra European Relations, Strategy Unit - Italian Space Agency ; Dr. Sara CAVELLI, General Director of SIOI.

JAPAN

Keio University

(last update March 2010)

Address: 5322 Endo, Fujisawa-city, Kanagawa, 252-8520 Japan (headquarters: 2-15-45 Mita, Minato-Ku, Tokyo 108-8345 Japan)
Tel: +81-466-47-5111
Fax: +81-0466-47-5041
Website: <http://www.sfc.keio.ac.jp>
E-mail: jadp-request@sfc.keio.ac.jp

Contact Person: Dr Setsuko AOKI: aosets@sfc.keio.ac.jp

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Degree specifically for space law is not provided. However, a Space law course is included in Graduate School of Media & Governance. A graduate student can obtain Master's and Doctor's degree of Global Governance, Human Security and Communications, or Media and Governance depending on the programs he or she chooses. A non-Japanese student can take courses only in English if he or she wishes so in the Human Security and Communications program in which space law is included. More information, see:
<http://www.sfc.keio.ac.jp/en/academics/graduate/>
2. **Courses offered in space law or related to space law:** Space law is one of the subjects in Global Governance, Human Security and Communications and Environmental Governance in the Graduate School of Media and Governance.
3. (a) **Number of faculty members in the programme:** One faculty with tenure. Several ad hoc faculties from industry, government agencies and space-related area.
(b) **Number of students in the programme:** Master's course 2; Doctor's course 1
4. **Duration of the programme:** 2 years for Master's Course ; 3 years for Doctor's course
5. **Language of instruction:** English (unless all students in the class are Japanese)
6. **Admission Standards:** <http://www.sfc.keio.ac.jp> and <http://www.keio.ac.jp>
7. **Cost of the programme:**
(a) **Tuition:** almost \$10,000 and an admittance fee for the first year is almost \$3000. For detailed information, see:
<http://www.sfc.keio.ac.jp/prospective/aboutmag/scholarship.html.en>
(b) **Textbooks:** not included in tuition fees. Cost depending on the programme one chooses.
(c) **Room and board:** none
8. (a) **Availability of fellowships/scholarships for foreign students:** yes
(b) **If YES, number of fellowships/scholarships available:** There are two types of scholarships available to students. The first type of scholarship requires no repayment, but the second type is in the form of a loan and therefore requires repayment after graduation. A Keio University student loan charges a lower interest rate compared to private financial institutions and offers a reasonable repayment plan. Although each scholarship has different conditions students may receive more than one scholarship which can prove to be of some advantage for them. More information at:
<http://www.keio.ac.jp/english/admissions/scholarships.html>
9. **Other relevant information:** Foreign students can apply for the Ministry for Education, Culture, Sports, Science and Technology (MEXT) scholarship in his or her own country through the embassy of Japan in that country . MEXT scholarship offers one of the best conditions to foreign students.

OTHER INSTITUTIONS:

Other campus of Keio University also offers space law courses, including Faculty of Law and Graduate School of System Design Management (SDM). More detailed information at:
<http://www.keio.ac.jp>

Brochure: <http://www.leidenuniv.nl/brochures/251.pdf>
E-mail: airandspace@law.leidenuniv.nl

Contact Person: Ms. T.L. Masson-Zwaan, Deputy Director, t.l.masson@law.leidenuniv.nl

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Master of Advanced Studies in Air and Space Law. The Master's of Advanced Studies programme in Air and Space Law is a combination of public air law, private air law and space law, both from an international and European perspective. The programme has been running since September 2000. As of September 2005, a blended learning version of the programme is also offered. The programme is offered by the law schools renowned International Institute of Air and Space Law. The programme is designed for students who hold a full law degree, pursuing careers in law firms or in consulting firms having aviation and space law practice; legal departments of airports and airlines; aerospace companies; civil aviation authorities, ministries or international, regional and national organisations involved in aviation and space activities. A course in air and space law at bachelors level is also taught in English in the framework of the 'Leiden Law Courses', see <http://www.law.leiden.edu/organisation/publiclaw/iasl/education/llc.html>
In addition, students can pursue a PhD in air or space law, see <http://www.law.leiden.edu/research/phdprogramme/how-to-become/howtobecomephdcandidate.html>.
2. **Courses offered in space law or related to space law:** The subjects that are taught in the advanced LL.M. course include: public air law; private air law; the law pertaining to financing, leasing and arrest of aircraft; air transport competition law and policy; space law and policy; space law case-studies; and EU aerospace law and policy. Attention is also given to aviation management and to aviation and space insurance. Furthermore, students are required to do an internship and to write a thesis. The programme is available in three versions:
 1. Master of Advanced Studies in Air and Space Law (in residence)
The programme is intended to be practically oriented; but it also pays due attention to fundamental and theoretical notions in air and space, European, public international, telecommunications and competition law. It also focuses on the role and tasks of operators of infrastructure, including airports and the subject of air traffic management.
 2. Master of Advanced Studies in Air and Space Law (Blended Learning)
Blended learning is a combination of distance learning and face- to-face learning. Participants largely work from their homes or offices and communicate with the teaching staff through internet, using various new teaching techniques. Participants come to Leiden two to three times during the course for a period of two weeks, in order to follow classical teaching sessions and to complete documentation. The blended learning version is only intended for established practitioners. Blended learners are exempted from the requirement of doing an internship.
 3. Modular: All courses listed in the full-time programme (in residence) can also be taken on a single-course (modular) basis. In order to qualify for admission, prospective applicants must demonstrate an already existing interest/participation in aviation and space activities. Certificates will be handed out after successful completion of a module. For detailed descriptions of the courses see

http://studiegids.leidenuniv.nl/en/studies/show/air_and_space_law_advanced_master_programme/2011-2012.

3. (a) **Number of faculty members in the programme:** Prof. Dr. P.M.J. Mendes de Leon, Director, Ms T.L. Masson-Zwaan, Deputy Director, Ms. Axelle Cartier, Sr. Lecturer. In addition, visiting professors from other countries and distinguished legal practitioners teach in the programme's courses. An intensive interaction between students and teachers is fostered.
(b) **Number of students in the programme:** Varies from 15-20, including Face-to-Face and Blended Learning programme. In addition, there are a number of candidates preparing a PhD in air or space law
4. **Duration of the programme:** 1 year (blended learning with option to spread over 2 years). Start date: September or February.
5. **Language of instruction:** English
6. **Admission Standards:** All applicants must:
 - Have completed a full law degree (offering access to legal practice) with sufficient knowledge of international law. A full law degree is considered a degree that gives access to the legal professions in the country where the degree was obtained. In special circumstances, graduates holding a bachelor's degree in law may also be admitted, depending on their individual qualifications (e.g. further experience in a relevant field). Prior knowledge of Air and Space Law is an asset, but not compulsory; Candidates for the blended learning version of the Advanced Master's programme must have at least five years of professional experience in the field of air and/or space activities;
 - Demonstrate a sufficiently high performance in a general law programme, validated by marks on their university degree/transcript and accompanying mark criteria, and letters of recommendation from current or previous professors and/or employers;
 - Have sufficient knowledge of European Law and international organisations. Applicants whose legal studies did not include these subject areas may be admitted provided they take the compulsory supplementary teaching offered;
 - Demonstrate a keen interest in aviation and space activities and the legal implications thereof, illustrated by, for example, a letter of motivation, past experience related to the subject i.e., professional experience, publications, conference papers;
 - Have proven English-language proficiency, validated through a TOEFL test (600 paper based/250 computer based or 100 Internet based) or IELTS test (7.0), occasionally complemented by a telephone interview. Students who do not meet this level of English but have a minimum score of IELTS 6.0 or equivalent may be offered a place on the programme on the condition that they attend a two-month pre-session English course at Leiden University. For detailed entry requirements see www.mastersinleiden.nl . All prospective students need to apply for admission at Leiden University Admissions Office. Application forms can be obtained from www.mastersinleiden.nl. Students can also apply online. Prospective students need to apply online via <http://en.mastersinleiden.nl/arrange/admission>. Paper applications can be used on request.
7. **Cost of the programme:** For the LL.M
(a) **Tuition:** €15,000 p/y (2011-2012) / €15,500 (2011-2012) for the blended learning option. The fee includes specified reading materials, excursions, attendance at selected conferences,

social events organised by the institute, etc. The fee for Blended Learning includes accommodation for the three face-to-face periods. All fees are subject to annual change.

8. **Availability of fellowships/scholarships for foreign students:** Leiden University offers the Leiden Excellence Scholarship (LExS). In addition national scholarships and other external funding opportunities are offered. The Institute can also provide advice on external scholarship programmes. See for general information <http://leidenuniv.nl/en/prospective/index.php3-c=13.htm>, or contact the Institute.
9. **Other relevant information:** All of Leiden University's LL.M. and Master's of Advanced Studies Programmes are accredited by the official Accreditation Organisation of The Netherlands and Flanders. The general deadlines for international students who need a visa and housing, are: April 1 for programmes starting in September; October 15 for programmes starting in February. In some cases other deadlines may apply. See further: <http://en.mastersinleiden.nl/programmes/air-and-space-law/en/introduction/> and <http://www.iasl.aero/>

02142 USA United States of America
Tel: +1 617 253 0266
Fax: +1 617 253 2115

Website: <http://ocw.mit.edu/>
E-mail: <mailto:ocw@mit.edu>

Contact Person: Stephen Carson, Director of External Relations
ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** MIT OpenCourseWare (OCW) is not a degree program. OCW is a free and open online publication of MIT course materials that reflects almost all the undergraduate and graduate subjects taught at MIT. There is no registration or enrolment process because OCW is not a credit-bearing or degree-granting initiative. Visit OCW at: <http://ocw.mit.edu>
2. **Courses offered in space law or related to space law:** OCW offers the educational materials from one course in space policy, "16.891J / ESD.129 Space Policy Seminar, Spring 2003." The course is taught by MIT Professors Daniel E. Hastings and Jeffrey Hoffman and explores current issues in space policy as well as the historical roots for the issues. Emphasis on critical policy discussion combined with serious technical analysis. The range of issues covers national security space policy, civil space policy, as well as commercial space policy. Issues explored include: the GPS dilemma, the International Space Station choices, commercial launch from foreign countries, and the fate of satellite-based cellular systems. The materials available include lecture notes, readings, assignments, projects, and a list of related resources. The free course can be found at: <http://ocw.mit.edu/OcwWeb/Aeronautics-and-Astronautics/16-891JSpace-Policy-SeminarSpring2003/CourseHome/index.htm>
3. **Number of faculty members in the programme:** Materials from 2 of MIT faculty members.
4. **Number of students in the programme:** No enrolment necessary. The course is free and open to all.
5. **Language of instruction:** English
6. **Admission Standards:** No admission or registration is required as there are no credits or certificates offered for the completion of this course.
7. **Cost of the programme:** Free and open access
8. **Other relevant information:** MIT OpenCourseWare (OCW) is a large-scale, Web-based publication of the educational materials from virtually all of the MIT faculty's courses. This unique initiative enables the open sharing of IT teaching materials with educators, enrolled students, and self-learners around the world. OCW provides open access to the syllabi, lecture notes, course calendars, problem sets and solutions, exams, reading lists, and even a selection of video lectures from MIT courses representing 33 academic disciplines and all five of MIT's schools. As of November 2009, the initiative includes materials from more than 1,971 courses, presenting virtually the entire curriculum of the Institute. Educators around the globe are encouraged to utilize the materials for curriculum development, and self-learners and students may draw upon the materials for self-study or supplementary use. Course materials contained on the OCW Website may be freely used, copied, distributed, translated, and modified by anyone, anywhere in the world for non-commercial purposes. Truly a global initiative, OCW materials have been visited by more than 62 million individuals to date. Visitors have come to the site from more than 215 countries, territories, and city-states around the globe-including every member of the United Nations- and materials already have been translated into at least ten different languages.

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Master of Science (M.S.) Degree in Space Systems Operations Management with emphasis in either Engineering and Technical Management; or Acquisition and Program Management.

2. **Courses offered in space law or related to space law:** Courses offered as an elective to the programme of studies in the Space Systems Operations Program: SPSM 5930, Space Law and Policy; SPSM 5600 Space Systems Acquisition Law (3 Credits each).
3. (a) **Number of faculty members in the programme:** 25
(b) **Number of students in the programme:** 80 (Denver) and 100 (Colorado Springs) Space System Management Program total
4. **Duration of the programme:** 39 credit hours, or approximately two and a half years
5. **Language of instruction:** English
6. **Admission Standards:** Applicants considered for admission to Webster University's graduate programs must have earned a recognized baccalaureate degree from an educational institution accredited by one of the six regional accrediting agencies in the United States. Students who completed their university education abroad must have earned an equivalent recognized baccalaureate degree, as determined by Webster University, and must submit original transcripts and the English translation. Full acceptance into the School of Business and Technology requires receipt of an official transcript from the baccalaureate granting institution with a minimum grade point average (G.P.A.) of 2.5. Students whose G.P.A. is above 2.0 but below 2.5 will be admitted under a "special status" category (see advancement to candidacy restrictions). Specialized graduate programs may have further admission requirements as outlined in their program description. Please see <http://www.webster.edu> for more information.
7. **Cost of the programme:**
 - (a) **Tuition:** Tuition for the 2011-2012 Academic year is \$485 USD per semester hour.
 - (b) **Textbooks:** Course material provided by Instructor on CD-ROM for SPSM 5930, cost \$20. On average, textbooks for other courses cost \$125 USD.
 - (c) **Room and board:** Room and Board not available through Webster University.
 - (d) **Other relevant costs:** None
8. (a) **Availability of fellowships/scholarships for foreign students:** Yes
(b) **If YES, number of fellowships/scholarships available:** Please see <http://www.webster.edu> for more information about scholarships and financial aid
