Corrigendum

English text, page 4

“In view of the foregoing, the following conclusions may be drawn:

1. The Russian Federation has neither signed the Moon Agreement nor ratified it. The United States of America has not yet acceded to the Moon Agreement since the obligations that it imposes (especially under article 3 on the non-militarization of the Moon and the prohibition on the placing in orbit around the Moon of objects carrying nuclear or other kinds of weapons) conflict with the space policy pursued by the United States;”

Russian text, page 8

“Учитывая изложенное, можно сделать следующие выводы:

1. Российская Федерация не подписала Соглашение о Луне и не ратифицировала его. США на настоящий момент не присоединились к Соглашению о Луне, так как их обязательства (особенно ст. 3 о немилитаризации Луны, невыведении на орбиту вокруг Луны объектов с ядерным оружием и другие) противоречат проводимой США космической политике;”
