Committee on the Peaceful Uses of Outer Space

Legal Subcommittee

Forty-seventh session

Vienna, 31 March-11 April 2008

Item 6 of the provisional agenda*

**Status and application of the five United
Nations treaties on outer space**

Activities being carried out or to be carried out on the Moon and other celestial bodies, international and national rules governing those activities and information received from States parties to the Agreement Governing the Activities of States on the Moon and Other Celestial Bodies about the benefits of adherence to that Agreement

Note by the Secretariat

Corrigendum

1. Paragraph 3

For the existing text *substitute*

3. A High-Level Panel on Space Exploration was held in Vienna on 6 June 2007, pursuant to paragraph 49 of General Assembly resolution 61/111 of 14 December 2006. In the executive summary of the document entitled "The global exploration strategy: the framework for coordination", which had been produced by 14 space agencies and distributed to the Committee in connection with the High-Level Panel as a conference room paper (A/AC.105/2007/CRP.6), it was noted that the number of countries involved in space exploration was growing steadily and that humankind was entering a new era, in which its presence would be extended beyond Earth's orbit, physically and culturally.

* A/AC.105/C.2/L.269.

2. Paragraph 4

For its document, the High-Level Panel *read* that document, it was
