From UNISPACE III to Now

IN SUPPORT OF THE UNITED NATIONS PROGRAMME ON SPACE APPLICATIONS
SGAC is a non-profit organisation that represents 18-35 year olds in international space policy at the United Nations, agencies, industry, and academia.

- Founded as a result of the 1999 UNISPACE III conference
- SGAC has had permanent observer status in the UN COPUOS since 2001 and has been a member of the UN Economic and Social Council since 2003
- SGAC has a volunteer network of more than 4,000 members in over 90 countries
SGAC Purpose

• Contributing to conferences for young professionals and university students

• Producing more intellectual space contributions from the young perspective through our year-round project groups

• Creating unique opportunities to young professionals and students to be heard internationally
SGAC Regional Workshops

• Strengthen the regional network of students and young professionals

• Examine challenges facing the space community and provide input from the next generation of space professionals

• Facilitate interaction between future space sector leaders and current regional professionals
1st Asia Pacific Space Generation Workshop

• **Agency:** Feasibility of establishing an Asia-Pacific Space Agency

• **Economy:** Examine how regional economic growth will affect the space sector in the next two to three decades

• **Technology:** Evaluate how technological advancements will affect the evolution of the Asia-Pacific regional space activities

• **Outreach:** Strategies to allow non-spacefaring nations access to space
1st South American Space Generation Workshop

- **Outreach**: Analysis of how South America can get more involved and stay motivated
- **Agency**: Examine the feasibility of a South American Space Agency
- **Technology**: What technological and research advancements are needed to grow the South American region
- **Mars Mission**: Strategies on how South America can contribute
Sponsors and Supporters
