

INTERNATIONAL
ORGANIZATION OF SPACE
COMMUNICATIONS

ABOUT INTERSPUTNIK

- INTERSPUTNIK International Organization of Space Communications was established under the international Agreement of November 15, 1971 on the Establishment of the INTERSPUTNIK International System and Organization of Space Communications
- Establishment of the INTERSPUTNIK was registered by the Secretariat of the United Nations Organization on March 27, 1973 under No. 12343
- 25 countries – Members of the Organization
- Headquartered in Moscow, Russia
- Provides satellite capacity on the geostationary satellites to licensed operators
- Implements joint projects on production of satellite systems based on its orbital resource
- Customers: telecommunication administrations, public and private broadcasters, telecom operators, ISPs and corporate users in over 40 countries

1971

AGREEMENT
on the establishment of the "INTERSPUTNIK" International System and Organization of Space Communications

The Contracting Parties,
recognizing the need to contribute to the strengthening and development of comprehensive economic, scientific, technical, cultural and other relations by communication as well as by radio and television broadcasting via satellites;
recognizing the utility of cooperation in theoretical and experimental research as well as in designing, manufacturing, operating and developing an international communications system via satellites;
in the interests of the development of international co-operation based on respect for the sovereignty and independence of states, equality and non-interference in the internal affairs as well as mutual assistance and mutual benefit;
in pursuance of the provisions of Resolution 1721 (XVI) of the United Nations General Assembly and the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, Including the Moon and other Celestial Bodies, of January 27, 1967,
have agreed on the following:

ARTICLE 1

- There shall be established an international system of communications via satellites.
- To ensure cooperation and coordination of efforts in the design, establishment, operation and development of the communication system the Contracting Parties shall set up the "INTERSPUTNIK" international organization, hereinafter referred to as the Organization.

ARTICLE 2

- "INTERSPUTNIK" is an open international organization.

Intersputnik Holding Ltd.
-- a wholly-owned subsidiary of INTERSPUTNIK the *holding company* of an international *group of telecommunications operators*, duly licensed and having requisite approvals for telecommunications service provision in a specific region, common products and quality standards.

COOPERATION WITH INTERNATIONAL ORGANIZATIONS

COOPERATION WITH INTERNATIONAL ORGANIZATIONS

- ✓ In 2007 INTERSPUTNIK acceded to the Regional Commonwealth in the Field of Communication (RCC) that unites Telecommunications Administrations of CIS, Baltic, Central and Eastern European countries.
- ✓ INTERSPUTNIK's representatives joined in the works of RCC commissions and working groups.

- ✓ ***Working group for the revision of RCC constitutional instruments*** is entrusted with the elaboration of documents to establish an international intergovernmental organization called "Regional Communications Commonwealth" on the basis of the RCC association.
- ✓ Based on its huge 37 years' managerial, conceptual, technological and legal experience, INTERSPUTNIK is determined to continue assisting the RCC in establishing a new specialized international organization.

ASSISTANCE TO TELECOMMUNICATIONS ADMINISTRATIONS AND SATELLITE OPERATORS

In most cases, Telecommunications Administrations and operators prepare their ITU filings in a way allowing them to be as free as possible in configuring their spacecraft.

Filing global service areas and full-scale frequency bands, they block the frequency resource and prevent new satellite systems from being brought into use.

INTERSPUTNIK's technical service

- elaborated methods to determine satellite networks' compatibility;
- developed software successfully using these methods in INTERSPUTNIK's interests and in the interests of international satellite operators, which cooperate with our Organization.
