\* The present document was prepared on the basis of replies from member States received after January 2006.

## **II. Replies received from member States**

### **Czech Republic**

[Original: English]

The Czech Republic does not have any national legislation or any national practices relating directly or indirectly to the definition and/or delimitation of outer space and air space.

### **Republic of Korea**

[Original: English]

The Republic of Korea has no national legislation or practices relating directly or indirectly to the definition and/or delimitation of outer space and air space.

### **Venezuela (Bolivarian Republic of)**

[Original: Spanish]

The Bolivarian Republic of Venezuela does not, at present, have any law or legal practice directly or indirectly related to the definition or delimitation of outer space.
