Committee on the Peaceful Uses of Outer Space

Information furnished in conformity with the Convention on Registration of Objects Launched into Outer Space

Note verbale dated 7 December 2009 from the Permanent Mission of the United States of America to the United Nations (Vienna) addressed to the Secretary-General

The Permanent Mission of the United States of America to the United Nations (Vienna) presents its compliments to the Secretary-General of the United Nations and, in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit registration data on space launches by the United States for the period from July to October 2009 (see annexes I-IV).

V.10-51490 (E) 190310 220310

Annex I

Registration data on space launches by the United States of America for July 2009*

The following report supplements the registration data on United States launches as at 31 July 2009. All launches were made from the territory of the United States unless otherwise specified.

	Name of space object		Location of launch	Ba	isic orbital char	racteristics		
International designation		Date of launch		Nodal period (min)	Inclination (degrees)	Apogee (km)	Perigee (km)	General function of space object
The following	g objects were launch	ed since the last 1	report and remain in	orbit:				
2009-035A	TerreStar 1	1 July 2009	Kourou, French Guiana	634.20	6.0	35 911	237	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-037B	Falcon 1 R/B	14 July 2009	_	97.90	9.0	687	685	Spent boosters, spent manoeuvring stages shrouds and other non-functional objects
2009-038B	DRAGONSat	15 July 2009	_	91.07	51.64	329	324	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-038C	ANDE debris (Pollux cylinder)	15 July 2009	_	91.06	51.64	329	324	Spent boosters, spent manoeuvring stages shrouds and other non-functional objects
2009-038D	ANDE debris (Castor cylinder)	15 July 2009	-	91.09	51.64	327	321	Spent boosters, spent manoeuvring stages shrouds and other non-functional objects
2009-038E	ANDE Pollux Sphere	15 July 2009	-	91.10	51.64	331	326	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-038F	ANDE Castor Sphere	15 July 2009	-	91.12	51.64	333	327	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-038G	ANDE debris (Avionics Deck)	15 July 2009	-	91.10	51.64	331	325	Spent boosters, spent manoeuvring stages shrouds and other non-functional objects
2009-041D	AprizeSat 4	29 July 2009	Baikonur, Kazakhstan	97.50	98.1	674	602	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-041F	AprizeSat 3	29 July 2009	Baikonur, Kazakhstan	97.10	98.1	676	561	Spacecraft engaged in practical applications and uses of space technology

* The registration data are reproduced in the form in which they were received.

V.10-51490

	Name of space object	Date of launch L		Ва	usic orbital cha	aracteristics		
International designation			Location of launch	Nodal period (min)	Inclination (degrees)	Apogee (km)	Perigee (km)	General function of space object
								such as weather or communications
The following	g objects not previous	ly reported have	been identified sinc	e the last repor	t:			
2007-047D	Delta 2 debris	17 October 2007	_	342.81	39.97	19 482	212	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
2008-042C	GeoEye 1 debris	6 September 2008	_	98.10	98.16	673	663	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
The following None.	g objects not previous	ly reported have	been identified sinc	e the last repor	t but were n	o longer in	orbit as at	2400Z on 31 July 2009:
The following	g object achieved orbi	it since the last re	port but was no lon	ger in orbit as a	at 2400Z on	31 July 20	09:	
2009-038A	STS-127	15 July 2009	_	91.10	51.6	336	328	Reusable space transportation systems
	g objects identified in 51HF, 1997-051LY	a previous repor	t were no longer in	orbit as at 2400	Z on 31 Jul	ly 2009:		
The following	g objects were launch	ed since the last i	eport but did not ac	hieve orbit:				
None.								
	t ahavid ha mada ta m	reviously reporte	ed data:					
Revisions that	t should be made to p	reviously reporte						

Annex II

4

Registration data on space launches by the United States of America for August 2009*

The following report supplements the registration data on United States launches as at 31 August 2009. All launches were made from the territory of the United States unless otherwise specified.

International designation				B	asic orbital cha	racteristics		
	Name of space object		Location of launch	Nodal period (min)	Inclination (degrees)	Apogee (km)	Perigee (km)	General function of space object
The following	objects were launch	ed since the last r	eport and remai	n in orbit:				
2009-043A	Navstar 64 (USA 206)	17 August 2009	_	356.8	40.0	20 370	203	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-043B	Delta 2 R/B (1)	17 August 2009	_	99.1	37.9	1 235	196	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
2009-043C	Delta 2 R/B (2)	17 August 2009	_	356.5	40.0	20 351	202	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
2009-045A	STS-128	28 August 2009	_	88.4	51.6	238	156	Reusable space transportation systems
None.	objects not previous objects not previous	, I		1		no longer in	n orbit as a	t 2400Z on 31 August 2009:
	objects achieved orb	bit since the last r	eport but were n	o longer in orbi	t as at 2400Z	on 31 Aug	ust 2009:	
The following 1965-07	object identified in a 72F	a previous report	was no longer ir	n orbit as at 2400	0Z on 31 Au	gust 2009:		
The following None.	objects were launch	ed since the last r	eport but did no	t achieve orbit:				
	should be made to p	reviously reporte	d data:					

Annex III

Registration data on space launches by the United States of America for September 2009*

The following report supplements the registration data on United States launches as at 30 September 2009. All launches were made from the territory of the United States unless otherwise specified.

				B	asic orbital cha	racteristics		
International designation	Name of space object	Date of launch	Location of launch	Nodal period (min)	Inclination (degrees)	Apogee (km)	Perigee (km)	General function of space object
The following	objects were launch	ed since the last re	port and remain	in orbit:				
2009-047A	USA 207	8 September 2009	_	774.2	23.0	35 797	7 308	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-047B	Atlas 5 Centaur R/B	8 September 2009	_	774.2	23.0	35 797	7 308	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
2009-052A	STSS Demo 1 (USA 208)	25 September 2009	_	112.6	58.0	1 350	1 348	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-052B	STSS Demo 2 (USA 209)	25 September 2009	_	112.6	58.0	1 350	1 348	Spacecraft engaged in practical applications and uses of space technology such as weather or communications
2009-052C	Delta 2 R/B	25 September 2009	_	112.6	58.0	1 350	1 348	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
None. The following None.		ly reported have b	een identified s	ince the last rep	oort but were			t 2400Z on 30 September 2009:
The following None.	objects achieved orb	bit since the last re	port but were no	o longer in orbi	t as at 2400Z	on 30 Sept	tember 20	09:
U	objects identified in 51DF, 2007-043C, 2		were no longer	in orbit as at 24	00Z on 30 S	eptember 2	2009:	
The following None.	objects were launch	ed since the last re	port but did not	achieve orbit:				
Revisions that None.	should be made to p	reviously reported	data:					

ST/SG/SER.E/587

^{*} The registration data are reproduced in the form in which they were received.

Annex IV

Registration data on space launches by the United States of America for October 2009*

The following report supplements the registration data on United States launches as at 31 October 2009. All launches were made from the territory of the United States unless otherwise specified.

International designation				Ba	asic orbital char	acteristics		
	Name of space object		Location of launch	Nodal period (min)	Inclination (degrees)	Apogee (km)	Perigee (km)	General function of space object
The following	g objects were launch	ed since the last r	eport and remai	n in orbit:				
2009-055A	WorldView 2	8 October 2009	_	100.0	98.6	805	195	Spacecraft engaged in practical applications and uses of space technology such as weathe or communications
2009-055B	Delta 2 R/B	8 October 2009	_	100.1	98.6	777	776	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
2009-057A	DMSP 5D-3 F18 (USA 210)	18 October 2009	_	101.9	98.9	860	849	Spacecraft engaged in practical applications and uses of space technology such as weathe or communications
2009-057B	Atlas 5 Centaur R/B	18 October 2009	_	102.8	98.8	857	850	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
2009-057C	DMSP 5D-3 F18 debris	18 October 2009	_	101.9	98.9	858	854	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
2009-057D	DMSP 5D-3 F18 debris	18 October 2009	_	101.9	98.9	865	862	Spent boosters, spent manoeuvring stages, shrouds and other non-functional objects
The following None.	g objects not previous	ly reported have	been identified s	since the last rep	ort:			
-	g objects not previous	ly reported have	been identified s	since the last rep	ort but were i	no longer ir	n orbit as a	t 2400Z on 31 October 2009:
None.	1 1. 1 1		.1 .	1 . 1.	124007	21.0.4	1 2000	
None.	g objects achieved orb	off since the last r	eport but were n	o longer in orbit	as at 2400Z	on 31 Octo	ober 2009	
The following	g objects identified in 37B, 2006-050AG, 2		-	in orbit as at 24	00Z on 31 O	ctober 200	9:	
	g objects were launche	· · · · · · · · · · · · · · · · · · ·		t achieve orbit:				
	t should be made to p	reviously reporte	d data:
