Committee on the Peaceful Uses of Outer Space

Information furnished in conformity with the Convention on Registration of Objects Launched into Outer Space

Note verbale dated 18 June 2015 from the Permanent Mission of Norway to the United Nations (Vienna) addressed to the Secretary-General

The Permanent Mission of Norway to the United Nations (Vienna), in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit information concerning Norwegian space object Thor 7, recently launched from Kourou, French Guiana (see annex I), and additional information concerning a previously registered space object, Thor 3 (see annex II).
Annex I

Registration data on a space object launched by Norway*

Thor 7

Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space

Committee on Space Research international designator: 2015-022A
Name of the space object: Thor 7
National designator/registration number: 40613
State of registry: Norway
Date and territory or location of the launch: 26 April 2015 at 2000 hours 7 seconds UTC Kourou, French Guiana

Basic orbital parameters
   Nodal period: 24 hours
   Inclination: 0 degrees
   Apogee radius: 42,165 kilometres
   Perigee radius: 42,165 kilometres
General function of the space object: Telecommunications

Additional voluntary information for use in the Register of Objects Launched into Outer Space

Geostationary position: -1 degrees East
Website: www.telenorsat.com
Space object owner or operator: Telenor Satellite Broadcasting
Launch vehicle: Ariane 5

* The information was submitted using the form prepared pursuant to General Assembly resolution 62/101 and has been reformatted by the Secretariat.
Annex II

Additional information on previously registered space object launched by Norway*

Thor 3

Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space
