Recent Experiences with

SPACE DEBRIS RE-ENTRY:

Lessons Learned and Best Practices

June 26, 2025

14:10 - 15:00

Press Room, Vienna International Centre

Space debris is an internationally recognized challenge mentioned prominently in the Report of the Secretary-General *Our Common Agenda* and the subsequent Policy Brief *For All Humanity – the Future of Outer Space Governance*. Addressing space debris is a key commitment within the *Pact for the Future*.

Join us for an informative discussion, co-hosted by the Canadian Space Agency (CSA) with support from the UN Office for Outer Space Affairs (UNOOSA). This event will share valuable lessons learned and practical approaches to enhance awareness and support implementation of the 21 Long-term Sustainability Guidelines.

AGENDA

- Opening remarks by
UNOOSA Director, Ms. Aarti Holla-Maini
- Discussion of recent re-entry events presented by
Canada, Philippines, Kenya, and Australia
- Audience Q&A
