**Committee on the Peaceful  
Uses of Outer Space**  
**Sixty-eighth session**  
Vienna, 25 June–2 July 2025

## Draft report

### Addendum

## Chapter II

## Recommendations and decisions

### I. Future role and method of work of the Committee (continued)

#### *Action Team on Lunar Activities Consultation*

1. The Committee noted that, as agreed at its sixty-seventh session, the secretariat had invited contributions from States members of the Committee on the bureau and the workplan of the Action Team on Lunar Activities Consultation.
2. The Committee noted with satisfaction the establishment of the Bureau of the Action Team, consisting of two Co-Chairs, Hasan Abbas (Pakistan) and Ulpia-Elena Botezatu (Romania).
3. The Committee noted that the Action Team had commenced its work by holding meetings during the sixty-second session of the Scientific and Technical Subcommittee to develop a workplan in accordance with its mandate and methods of work ([A/79/20](#), annex IV, paras. 1 and 11).
4. The Committee noted that the Action Team had met during the sixty-fourth session of the Legal Subcommittee and the sixty-eighth session of the Committee, as well as during the intersessional periods, to finalize the workplan for submission to the Committee for its endorsement.
5. The Committee noted that the Action Team had submitted its draft workplan (A/AC.105/2025/CRP.31), which included the priority topics of the Action Team, for endorsement by the Committee. The Committee also noted that the priority topics would be updated until 2026.
6. The Committee endorsed the workplan, including the priority topics of the Action Team, as contained in annex I to the present report.
7. The Committee further noted that the Action Team would hold intersessional meetings to advance its work in accordance with the workplan and would report on

the progress made to the Scientific and Technical Subcommittee, the Legal Subcommittee and the Committee at their sessions in 2026.
