

# **Legal Advisory Project on Space law for new space actors: Fostering responsible national space activities**

Fifty-eight Session of the Legal Subcommittee  
Vienna, 1 - 12 April 2019

**Yukiko Okumura, Associate Expert on Space Law and Policy  
Committee, Policy and Legal Affairs  
Ian Freeman, Associate Programme Officer  
Office of the Director**

**United Nations Office for Outer Space Affairs**

# Presentation Outline

- Project Introduction
- Background
- Objectives
- Approach
- Target Beneficiaries

# Project Introduction

- Space activities support economic growth, deliver high returns on investment, generate new technologies and create jobs.
- Record numbers of countries and non-governmental entities are investing in the space environment.
- Awareness of, and adherence to, international space law is becoming more important than ever.
- UNOOSA to establish a new project to deliver space law technical advisory missions (TAM), targeted and tailored, for regulatory authorities of space faring nations.

## Background: Wider context

# Recent UNOOSA activities in space law and policy

Series of **UN workshops on space law**: Netherlands (2002); Republic of Korea(2003); Brazil (2004); Nigeria(2005); Ukraine (2006); Iran (2009); Thailand (2010); Argentina (2012); China (2014); UNOV Vienna (2016). Series of **UN conference on space law and policy**: Russian Federation (2018); planned with Turkey/APSCO (2019).

- Promote **awareness** of legal and policy aspects
- Draw **attention** of authorities and decision-makers to topical issues
- Promote **implementation** of the legal regime of outer space
- Enhance **capacity-building** efforts

# Background

UNOOSA is receiving regular requests for targeted technical legal assistance to support in the development of national space policy and legislation.

The importance of UNOOSA delivering such services has been recognised on multiple occasions, including:

- Declaration on the fiftieth anniversary of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies (A/RES/72/78) December 2017
- Report on the United Nations/Austria Symposium on the theme “Access to space: holistic capacity-building for the twenty-first century” (A/AC.106/1162) Graz, 3-7 September 2017
- Report on the United Nations Workshop on Space Law (A/AC.105/1131) Vienna, 5-8 September 2016
- Report of Legal Subcommittee (2017, 2018)

# Project Objectives

The project will allow UNOOSA to establish dedicated advisory services to facilitate space faring nations to draft national space law and national space policy that is in line with international space law.

## The project aims to:

- In collaboration with requesting States, identify needs and deliver tailored advisory services.
- Raise global awareness levels of the fundamental principles of international space law.
- Support the universalization, adherence and implementation of the key components of normative framework.

## Key areas to be focused

- Responsibility of States for governmental and non-governmental space activities
- Liability for damage caused by space objects
- Duty to provide information on and to register space objects

# Project Approach

## Services on offer

- UNOOSA to support partners decode the fundamentals of international space law, increasing their capacity to draft or revise national space law and policy.
- UNOOSA supports partners implement existing normative frameworks, such as the Outer Space Treaty, the Registration Convention and the UN Space Debris Mitigation Guidelines.
- UNOOSA supports partners to enhance understanding of the rapidly evolving legal framework governing space.

# Project Approach

## A four stage method

Stage 1) Baseline analysis

Stage 2) On-site legal advisory services

Stage 3) Follow up advisory services

Stage 4) Impact evaluation

# Target Beneficiaries

## Project for policy-makers and legislators

- UNOOSA will tailor the capacity-building and advisory services to the needs and requirements of policy-makers and legislators in governmental and regulatory authorities from countries who are either entering the space sector for the first time or who are embarking upon new phases of space activities.

## Call for donors

The project aims to enhance UNOOSA's internal capacity respond to such requests for legal advisory services in a structured and sustainable manner.

To establish this new approach, UNOOSA is calling on interest parties to consider supporting such efforts through voluntary contributions.
