

SUSTAINABILITY 101

North & South, East & West, New & Old

PERSPECTIVES ON SPACE SUSTAINABILITY

Challenges in promoting effective adoption and implementation

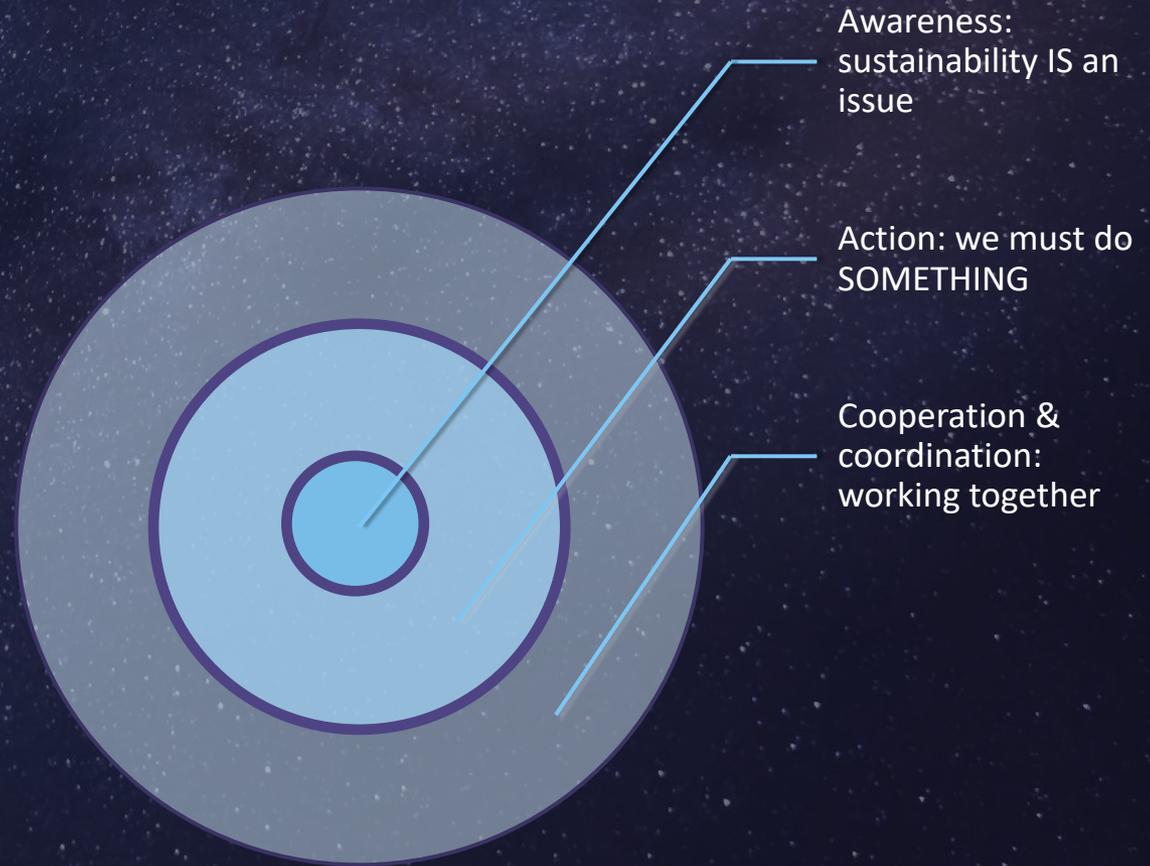

The adoption of LTS guidelines was a milestone BUT....

bringing everyone on board is a whole new game

DIFFERENT ACTORS, DIFFERENT PERSPECTIVES

- Established, transitional and new space actors will differ in:
 - ❖ Development of space program
 - ❖ Domestic regulations
 - ❖ Share of private sector
 - ❖ International engagement

PREPAREDNESS

-
- Awareness
 - Availability of resources
 - technical & legal capabilities

FACTORS AT PLAY

The promotion of sustainability is above all a political decision.

New actors need to get it right from the start. Mature actors must be willing to cooperate.

SOME THOUGHTS

- The promotion of sustainability is above all a political decision. Or is it?
- New actors need to get it right from the start.
- Mature actors must find ways to cooperate.
- Coordination and cooperation are essential. Exclusion runs counter to LTS.
