*Recognizing Innovation*

Prince Sultan Bin Abdulaziz  
International Prize for Water

Recognizing Innovation

“ It is going to take effective management, international commitment, and political strength to avert the impending crisis of water scarcity. Even this will not be enough without the committed efforts of scientists and researchers to provide the innovative solutions and technology that we need. They must be given every encouragement. ”

- HRH Prince Khaled Bin Sultan, PSIPW Chairman

# Space & Water Conference

## Sponsored Conferences
