Update on the Consortium for Execution of Rendezvous and Servicing Operations (CONFERS)

February 2022

Brian Weeden, Secure World Foundation
CONFERS Executive Director
Founding and Background

- CONFERS was initiated in October 2017 by the Defense Advanced Research Projects Agency (DARPA) under the US Department of Defense.
  - Leverage best practices from government and industry to develop technical and safety standards that servicing providers and clients for on-orbit servicing operations would adopt
  - Provide technical basis for definitions of responsible behavior in outer space
- CONFERS is scheduled to transition to full private-sector funding by November 2022 and is expected to be an independent, self-sustaining industry forum
- Open to participation by private sector stakeholders in the international satellite servicing community and government agencies
- Primary objectives:
  - Advocate and promote on-orbit satellite servicing, including but not limited to maintenance, repair, assembly, manufacturing, and inspection
  - Develop industry-led standards that contribute to a sustainable, safe, and diverse space economy
  - Engage with governments on policy and oversight of satellite servicing activities
Membership

• 54 member organizations from US, Australia, Canada, Europe, Japan, and New Zealand
• Most of our members are early-stage start-ups or small and medium sized companies
Leadership

Chris Blackerby, Chair
Astroscale Holdings

Joerg Kreisel, Vice Chair
iBoss GmbH

Jeremy Schiel, Treasurer
OrbitFab

Joe Anderson
Space Logistics LLC

Jamie Landers
Lockheed Martin

Jon Goff
Voyager

Chris Kunstadter,
AXA XL

Brian Weeden, Exec Director
Secure World Foundation
Organization

Executive Committee
9 members
(7 Elected and 2 Statutory)

Executive Director

Technology Working Group (CTWG)
Advance technical development of current and future CONFERS products

Policy Working Group (CPWG)
Inform policy positions and government engagement

Communications Working Group (CCWG)
Drive Communications and Outreach to potential customers and the general public

Lexicon Working Group (CCWG)
Clarify terminology and definitions of servicing related terms
Active Internal and External Interactions

• Multiple workshops held annually for members and international government subject matter experts
  • Held 13 workshops since May 2018 in the United States, Germany, and the UK as well as virtual
• Direct interactions with policymakers in US, Europe, and Japan
• Appearances at conferences – booths and panel presentations
• Annual [Global Satellite Servicing Forum](#)
  • Held in 2018, 2019, 2020 (virtual), and 2021 (virtual)
  • Industry and government experts speak at 2-day conference dedicated to RPO and OOS
• Presentation at UNCOPUOS in 2019 and 2020
• Panel, presentations, and booths at several major international conferences
CONFERS Publications & Standards

CONFERS has published the following documents

- **Guiding Principles** - Top-level principles that guide commercial RPO/OOS
- **Recommended Design and Operational Practices** - Recommended steps to take to improve safety & transparency
- **On-Orbit Servicing Mission Phases** - Breakdown of RPO/OOS mission phases and baseline for mitigation of risks

CONFERS has contributed to or has in work three different standards related to satellite servicing:

- **ISO 24330 Rendezvous and Proximity Operations (RPO) and On Orbit Servicing (OOS) — Programmatic principles and practices**
- **AIAA Rendezvous & Proximity Operations (RPO) & On-Orbit Servicing (OOS)—Spacecraft Fiducial Markers**
- **CONFERS Prepared In-Space (Re)Fueling Systems**
Future Evolution of CONFERS

• DARPA will be exiting its sponsorship of CONFERS in November 2022
• CONFERS plans to continue as an independent, private entity
• As part of this change, CONFERS has added a new membership category of government observer that is open to all countries (no dues)
• CONFERS also still welcomes membership by private sector entities (Industry, academic research institutions, nonprofit and not-for-profit organizations) that have a direct and material interest in satellite servicing and standards development
Contact Information

• Information on our publications and the membership application process is available on the CONFERS website at: satelliteconfers.org

• Contact Information:
  • Technical/Standards questions: Dr. Brian Weeden (bweeden@swfound.org)
  • Membership/Administrative: Ms. Haley Back (confers@ati.org)
