UN GA President 

@UN_PGA

I convey my heartfelt congratulations to this year's recipients of the Prince Sultan Bin Abdulaziz International Prizes for Water.

Your groundbreaking innovations provide prospective solutions to the water challenges our world is facing.

“We are proud to collaborate with the Prince Sultan Bin Abdulaziz International Prize for Water in contributing to international water-related efforts such as the Water Action Decade and the Global Acceleration Framework. Together we foster exchange of data, information and knowledge between the space and water sectors, with capacity building activities on the use of space-based data for a more sustainable management of water and aquatic ecosystems. Together, we contribute to innovation and improving water governance by connecting almost 90 stakeholders from various sectors and research disciplines, and moderating action-oriented dialogues from the local to the global level.”

-- Mr. Niklas Hedman, Acting Director of UNOOSA
