

# *The Goals, Challenges and Limitations of Space Diplomacy*

Andre Rypl – Brazilian Space Agency

## Space activities: a changing scenario

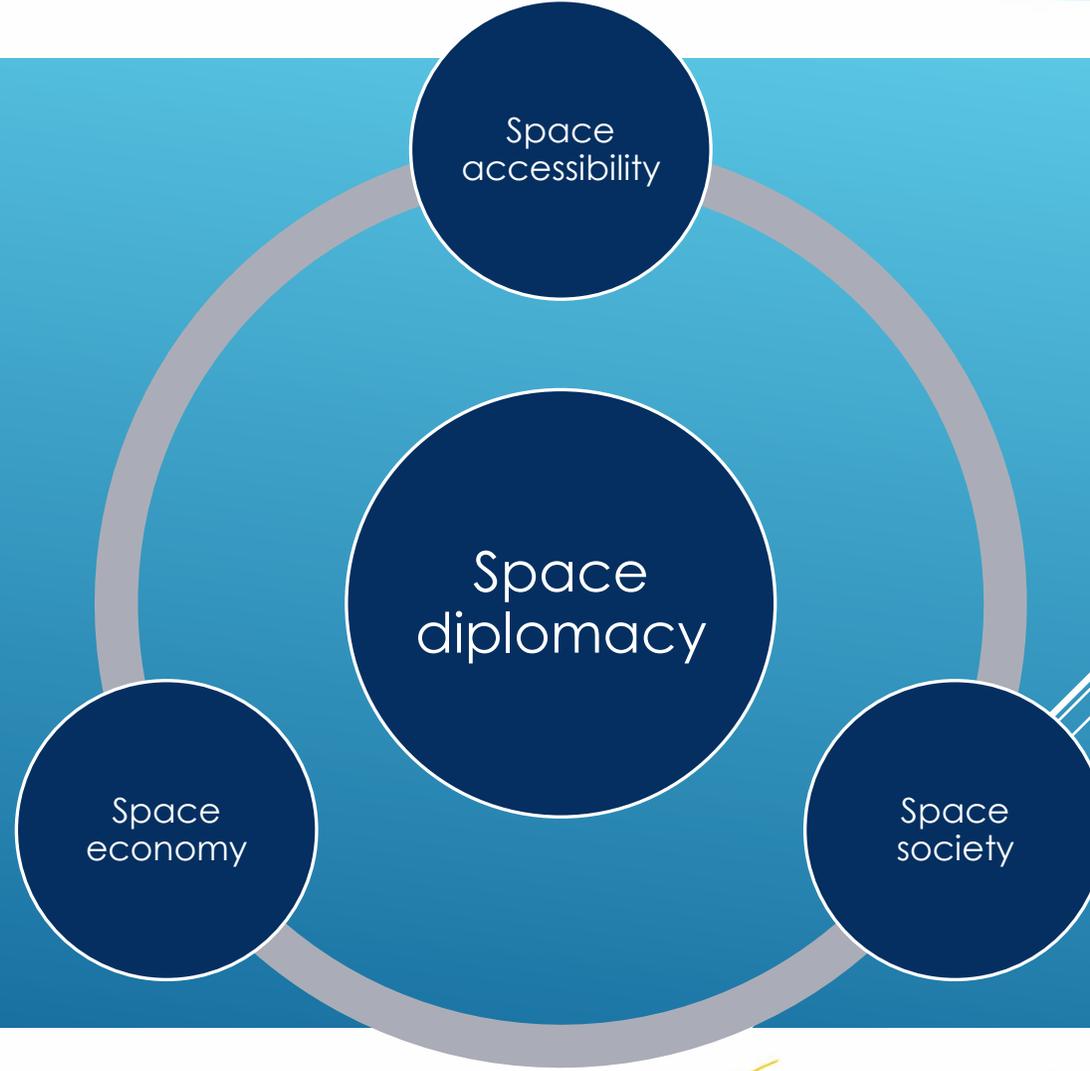

- **new actors (State and private)**
- **commercial activities**
- **science and technology x legal instruments**
- **challenges to sustainability**
  - **debris**
  - **risk of conflict**
  - **Liability**
  - **???**

COOPERATION AND DIPLOMACY

## Space diplomacy

“cooperation among nations in using space technologies and applications to address common challenges facing humanity and to build constructive, knowledge-based partnerships”

In the  
absence of  
diplomacy...

# Effective space diplomacy?

Any further  
statements on  
agenda item 5?
