# The old site

## [iswi-secretariat.org](http://iswi-secretariat.org)

The screenshot shows the homepage of the International Space Weather Initiative (ISWI) website. At the top left is the ISWI logo, which features a globe with the acronym 'ISWI' in the center. To the right of the logo, the text 'International Space Weather Initiative' is written in a red, serif font, with 'ISWI' in a smaller, black, sans-serif font below it. Further right is a small world map with red dots indicating project locations. Below the header is a navigation menu with buttons for 'About', 'Organization', 'Projects', 'Meetings', 'Publications', and 'News&Blogs', and a 'HOME' button. The main content area is overlaid on a large world map. It features a 'Good Afternoon.' greeting, a 'Welcome to: International Space Weather Initiative (ISWI)' message, and a paragraph describing ISWI as a program of international cooperation. A second paragraph states that ISWI is a follow-up to the IHY 2007. A third paragraph outlines the goal of ISWI. At the bottom, there is a copyright notice '© ISWI 2023' and a list of project names on the left side of the map.

**International Space Weather Initiative**  
ISWI

ISWI current projects are 17 (May 14, 2013)

**Good Afternoon.**  
**Welcome to: International Space Weather Initiative (ISWI)**

**ISWI is a program of international cooperation** to advance the space weather science by a combination of instrument deployment, analysis and interpretation of space weather data from the deployed instruments in conjunction with space data, and communicate the results to the public and students.

ISWI is a follow-up activity to the successful IHY 2007, but focusing exclusively on space weather.

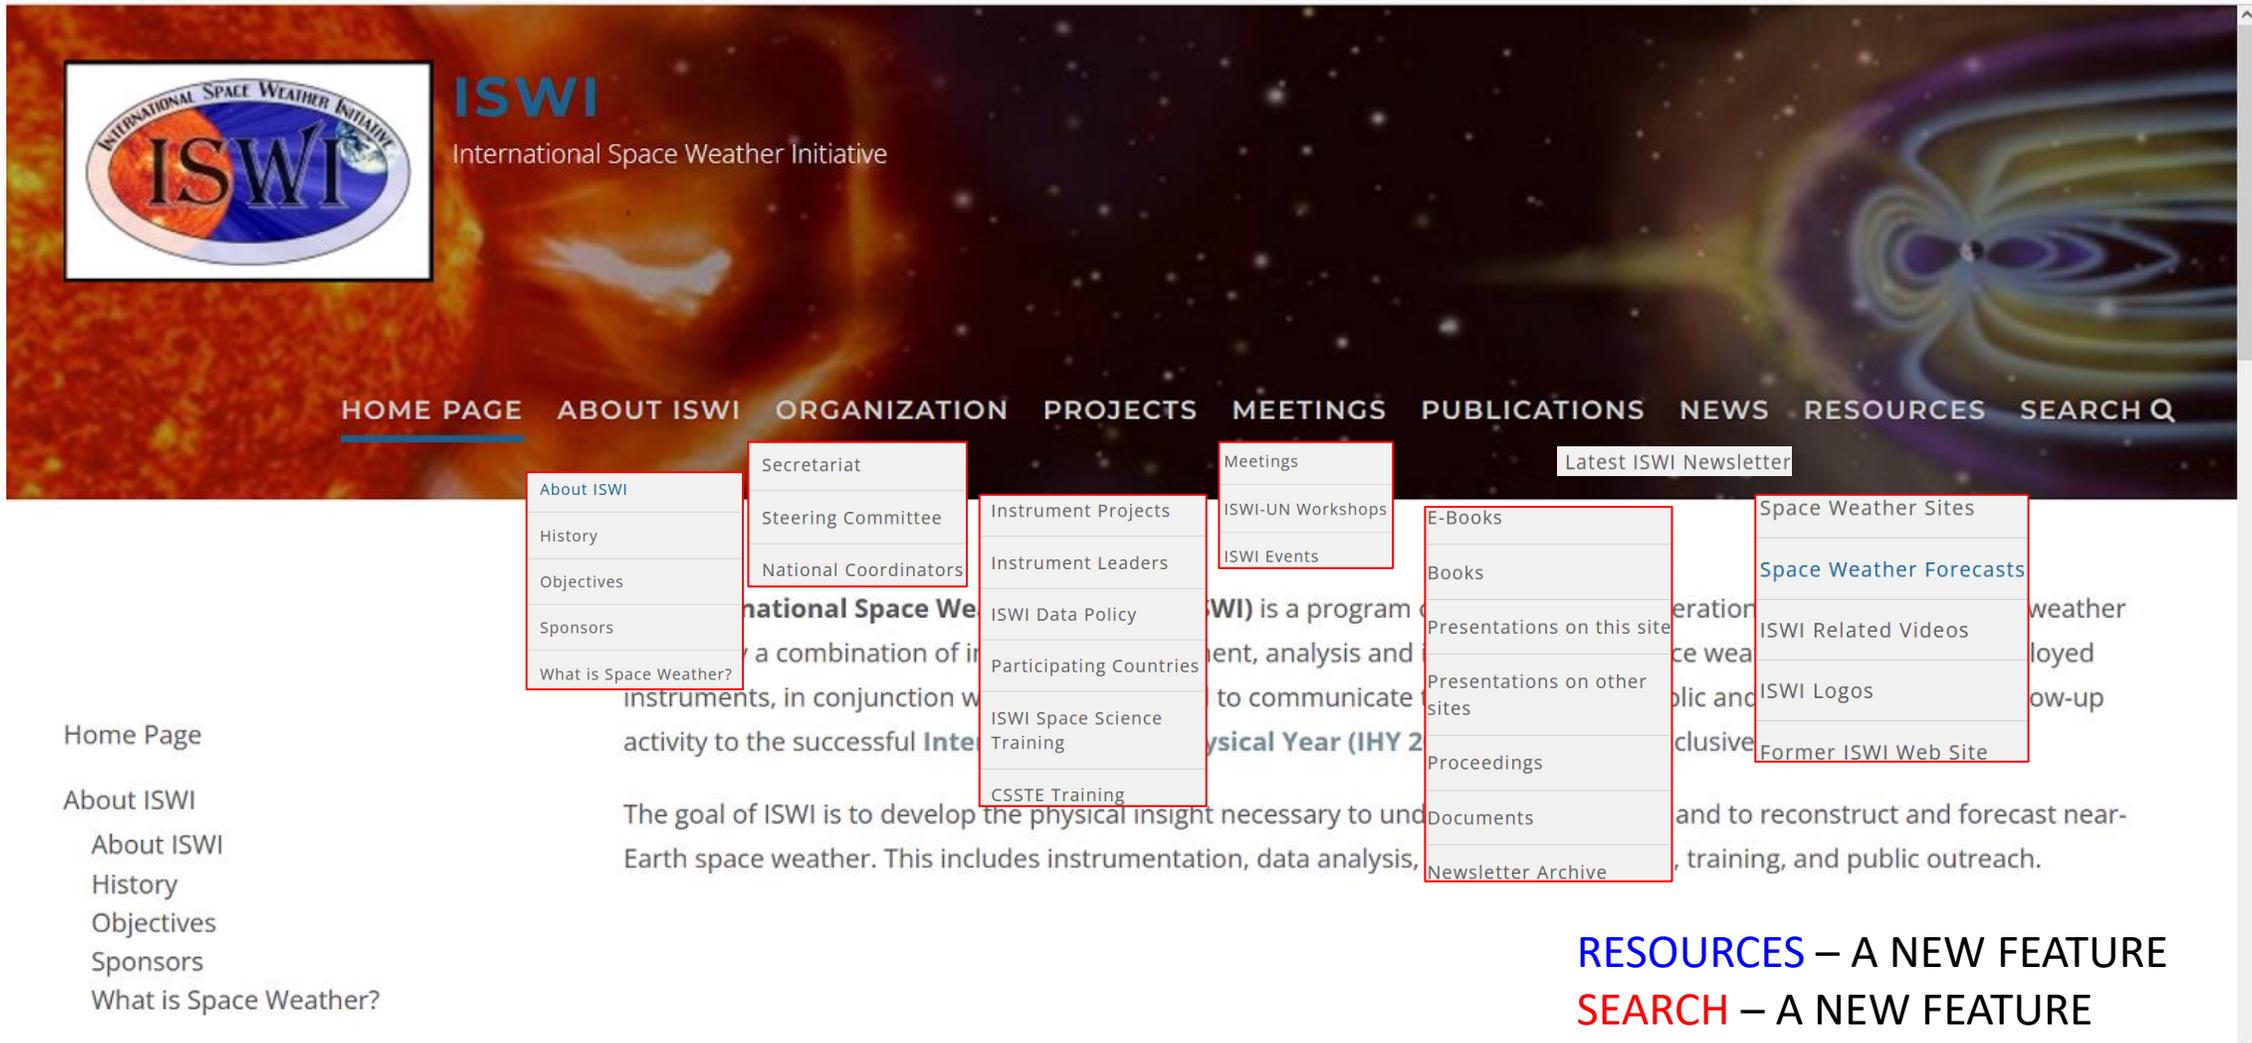

**The goal of the ISWI** is to develop the scientific insight necessary to understand the science, and to reconstruct and forecast near-Earth space weather. This includes instrumentation, data analysis, modeling, education, training, and public outreach.

# The new site

<https://hgv.b11.myftpupload.com/>

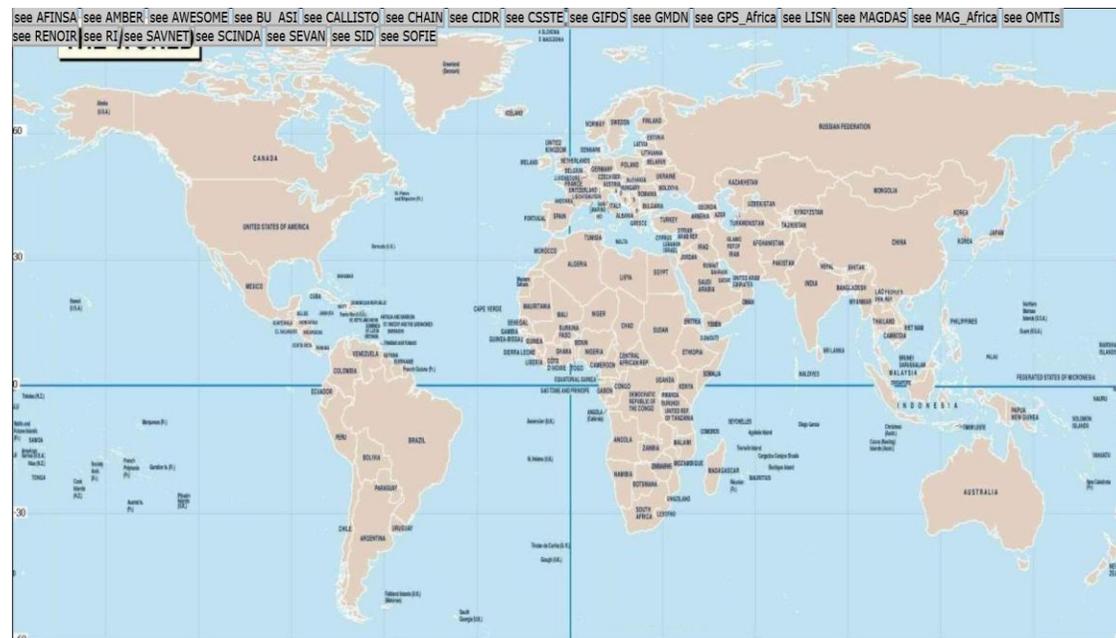

The screenshot shows the ISWI website homepage with a space-themed background. The ISWI logo is in the top left, and the text "ISWI International Space Weather Initiative" is to its right. A navigation bar at the top contains the following items: HOME PAGE (underlined), ABOUT ISWI, ORGANIZATION, PROJECTS, MEETINGS, PUBLICATIONS, NEWS, RESOURCES, and SEARCH Q. Several dropdown menus are open, showing sub-items: "About ISWI" (About ISWI, History, Objectives, Sponsors, What is Space Weather?), "Secretariat" (Steering Committee, National Coordinators), "Instrument Projects" (Instrument Projects, Instrument Leaders, ISWI Data Policy, Participating Countries, ISWI Space Science Training, CSSTE Training), "Meetings" (Meetings, ISWI-UN Workshops, ISWI Events), "Latest ISWI Newsletter" (E-Books, Books, Presentations on this site, Presentations on other sites, Proceedings, Documents, Newsletter Archive), and "Space Weather Sites" (Space Weather Sites, Space Weather Forecasts, ISWI Related Videos, ISWI Logos, Former ISWI Web Site). On the left side, a sidebar lists: Home Page, About ISWI, About ISWI, History, Objectives, Sponsors, and What is Space Weather?. At the bottom right, there are two highlighted text blocks: "RESOURCES – A NEW FEATURE" and "SEARCH – A NEW FEATURE".

**RESOURCES – A NEW FEATURE**

**SEARCH – A NEW FEATURE**

Almost all of the old site has been transferred to the new one,  
plus new features added

One exception (so far): the instruments' interactive map
