

Capacity-Building in FFG

National Space Programme ASAP

Participation in

- ESA Programmes
- EU Programmes GALILEO, Copernicus and SST
- H2020 Space
- European Satellite Navigation Competition
- Copernicus Masters

Summer School Alpbach

ESERO

NPOC Space Law

Future of the capacity-building programmes of FFG

- Specific technology activities (CubeSat Initiative)
- Specific Focus on New Space, Megaconstellations etc.
- ESA Business Incubation Centre in Austria
- CANSAT Competition in Austria in April 2018

Importance of the holistic approach

- Example: Development of Austrian CubeSat PEGASUS for QB50

Importance of international cooperation

- Important for smaller countries such as Austria
- Important to remain competitive and to acquire new competences and skills
