

# SGAC: A global network for data dissemination

*Clémentine Decoopman, Executive Director*

The Space Generation Advisory Council in Support of the United Nations Programme on Space Applications

## Presenting a Capacity Building platform model...

- Our network - SGAC's best asset

**10000 members and  
alumni**  
**6 REGIONS**  
**110 COUNTRIES**

“

"To create a council to support the United Nations Committee on the Peaceful Uses of Outer Space, through raising awareness and exchange of fresh ideas by youth. The vision is to employ the creativity and vigour of youth in advancing humanity through the peaceful uses space".

”

- SGAC Global Events – a reliable tool for data dissemination

Objective: to bring together young minds from all over the worlds, with different backgrounds (education and professional) to think together on a topic of relevance to the current international space policy issues.

- SGAC's Project Groups – an opportunity for Education and Capacity Building
