

26<sup>th</sup> Workshop "Space Technology for Socio-Economic Benefits: "Industry, Innovation and Infrastructure for Development (3Is4D)"

28-30 September 2018, Bremen, Germany

# Programme

Bremen, Germany, 28 – 30 September 2018

### Honorary Committee (in alphabetical order):

- S. Di Pippo, Director, Office for Outer Space Affairs, United Nations
- J.-Y. Le Gall, President, International Astronautical Federation (IAF)
- P. Ehrenfreund, Chair of DLR Executive Board
- J.-D. Wörner, Director General, European Space Agency (ESA)

### Programme Committee (in alphabetical order):

- C. Feichtinger, International Astronautical Federation (IAF)
- C. Giannopapa, IAF- Committee for Liaison with International Organisations and Developing Nations (CLIODN)
- K.-U. Schrogl, International Institute of Space Law (IISL)
- D. Tilmans, EURISY
- I. Duvaux-Béchon, European Space Agency (ESA)
- J. Post, DLR
- J. Del Rio Vera, Office for Outer Space Affairs, United Nations
- S. Ravan, Office for Outer Space Affairs, United Nations
- C. Welch, IAF/International Space University (ISU)

### Local Organizing Committee (in alphabetical order):

• Corinna Harms, ZARM

# **General Information**

## Objectives

The Workshop will discuss space science, technologies and applications in support of economic, social and environmental development with a focus on the role of industries as key player to offer innovation and infrastructure needed for sustainable development. In particular, the Workshop will be a forum to share experiences of leaders in space industries, for networking amongst decision-makers in governments and opportunities for start-ups and emerging space related business in developing countries.

The main objectives of the Workshop are to:

- 1. Raise awareness on how space exploration and innovations can trigger new partnerships and help develop capabilities that create new opportunities in addressing global challenges;
- 2. Examine space applications for developing countries and, in particular, for the African region;
- 3. Foster dialogue amongst space industry and the public sector;
- 4. Share experiences of space-related start-ups and emerging industries especially from developing countries;
- 5. Discuss the role of space industry for development and contribution to Sustainable Development Goals (SDGs), in particular SDG 9 (Industry, Innovation and Infrastructure) and SDG 17 (Partnerships for the Goals); and
- 6. Bring together policy and decision makers and the research and academic communities to help integrate space solutions into policy and decision-making process

The role of industry in the access to space is increasing and strengthening the cooperation with the space industry is a way to increase the opportunities for developing countries to access space technologies and services. This workshop shall provide inputs on potential areas for partnerships considering the needs of developing countries, in particular Africa;

- Propose actions to progress in the definition of pilot projects that could foster collaboration;
- Promote collaboration in capacity-building at regional and international levels;
- Exploring the role of space industry in cooperation on the use of space for global health; and
- Exploring the role of space industry towards building resilient space technologies and applications.

## Programme of the Symposium

The program is designed to cover the aforementioned objectives and deliver the expected outputs. Sessions might be added or modified depending on the availability of speakers.

The programme includes plenary sessions and sufficient time for discussions among participants. The programme is as follows. Please note that is a draft version and the order of speakers and split in sessions may be subject to some changes:

# PROGRAM

# Friday, 28 September 2018 Morning

| 08:30 - 09:00   | Registration of Participants  |
|-----------------|---|
| Morning Session | Master of Ceremony: Jorge Del Rio Vera  |
| 09:00           | Opening Addresses & Opening Ceremony  |
| 9:05            | Christian Feichtinger   |
|                 | IAF Executive Director  |
| 9:15            | Shirish Ravan   |
|                 | United Nations Office for Outer Space Affairs                                     |
| 9:25            | Peter von Kampen  |
|                 | CFO of the Center of Applied Space Technology and Microgravity (ZARM)             |
| 9:35            | Christina Giannopapa  |
|                 | Chair CLIODN Committee, IAF & Head of Political Affairs, Strategy Department, ESA |
|                 | Keynote speech  |
|                 |   |
| 9:45            | Setting the Scene   |
|                 | Shirish Ravan   |
|                 | Chief of UN-SPIDER, United Nations Office for Outer Space Affairs                 |
| 10:15 - 11:00   | Coffee Break  |
| Session 1       | Space for Socio-Economic Development  |
|                 | Moderator: Alessandra Vernile / Rapporteur: Ayami Kojima                          |
| 11:00           | Serbia's roadmap to space   |
|                 | Milan Mijovic   |
|                 | Serbian Office for Space Sciences, Research and Development                       |
| 11:15           | Ethiopian Space Program: Challenges and Opportunities                             |
|                 | Beza Zewdie   |
|                 | Ethiopian Space Science Society   |
| 11:30           | Bhutan's Journey into Space: Story of a Developing Country                        |
|                 | Cheki Dorji   |
|                 | Ministry of Information and Communications Bhutan                                 |
|                 |   |

| 11:45         | Space technology as means to achieve greater socio-economic benefits: the recent experience in Colombia   Hector Guerrero Berrio   Ministry of Foreign Affairs Colombia |
|---------------|---|
| 12:00         | Discussion  |
|               | Keynote speech (Master of Ceremony: Jorge Del Rio Vera)   |
| 12:15         | Pascale Ehrenfreund<br>Chair, German Aerospace Center (DLR)   |
| 12:45 - 14:00 | Lunch Break   |

## Friday, 28 September 2018 Afternoon

| Session 2     | Space Applications for Developing Countries   |
|---------------|---|
|               | Moderator: Funmilola Oluwafemi / Rapporteur: Hui Du   |
| 14:00         | <b>Space Generation Advisory Council activities in developing countries: the socio-economic</b><br>benefits of space technology applied to the blue economy |
|               | Alessandra Vernile and Swetha Kotichintala  |
|               | Space Generation Advisory Council   |
| 14:15         | Innovating in Mexican Emergency/Early Warning Systems   |
|               | Norma Hernandez   |
|               | Autonomous University of Mexico State   |
| 14:30         | Space-Aided Climate Change Adaptation   |
|               | Kelly Mulvay  |
|               | International Space University  |
| 14:45         | Discussion  |
|               |   |
| 15:00 - 15:30 | Coffee Break  |
| Session 3     | Experience-sharing of space-related industries, start-ups and emerging industries from developing countries   |
|               | Moderator: Isabelle Duvaux Bechon / Rapporteur: Aimin Niu   |
| 15:30         | Trends for Entrepreneurship in Southern Africa to Support the Sustainable Development     Goals Using Space Technology                                      |

|       | Minoo Rathnasabapathy  |
|-------|--|
|       | Space Enabled Research Group, Massachusetts Institute of Technology                  |
| 15:45 | Brazilian Success Start-Ups derived from university space programs                   |
|       | Fernando Stancato  |
|       | Universidade de Sao Paulo  |
| 16:00 | Satellite Technology Transfer: An engine for Sustainable Growth                      |
|       | Oluseyi Adewumi  |
|       | Centre for Satellite Technology Development  |
| 16:15 | The growing emergence of NewSpace in Africa  |
|       | Leehandi De Witt   |
|       | NewSpace Systems   |
| 16:30 | Strengthening economic development in Africa through technological startup ecosystem |
|       | support  |
|       | Marc Lange   |
|       | Challengers  |
| 16:45 | Discussion   |
|       |  |
| 17:00 | Closure  |
|       |  |

# Saturday, 29 September 2018 Morning

| 08:30 - 09:00 | Registration of Participants |
|---------------|------------------------------|
|               |                              |

| Session 3 (cont'd) | Experience-sharing of space-related industries, start-ups and emerging industries from developing countries  |
|--------------------|--|
|                    | Moderator: Isabelle Duvaux Bechon / Rapporteur: Aimin Niu  |
| 09:00              | Low cost open source hardware and software technologies, integrated as a payload in a high-<br>altitude balloon, a tool for STEM education and industry development in Paraguay, a case<br>study |
|                    | Jorge Kurita   |
|                    | Paraguay Space Agency  |
| 09:15              | <u>Using GIS and remote sensing data to identify priorities for construction of rural roads</u><br>infrastructure to promote agricultural growth in Guatemala                                    |
|                    | Carlos Duarte Carranza   |
|                    | Universidad Rafael Landivar  |
| 09:30              | Microgravity Platforms as Biotechnology Scaffolds for Socio-Economic Benefits  |
|                    | Funmilola Oluwafemi  |
|                    | National Space Research and Development Agency   |
| 09:45              | The Kenya Space Program and relations with industry for social economic development  |
|                    | John Kimani  |
|                    | Kenya Space Agency   |
| Session 4          | Space industries for supporting specific Sustainable Development Goals   |
|                    | Moderator: Vincezo Aquaro / Rapporteur: Shirish Ravan  |
| 10:00              | ESA Supporting the UN SDGs – the catalogue of activities   |
|                    | Isabelle Duvaux Bechon,  |
|                    | Head of Member States Relations and Partnerships   |
|                    | European Space Agency  |
| 10:15              | UN Sustainable Development Goals – Contributions of weather and cloud independent radar<br>satellite monitoring and services   |
|                    | Alexander Kaptein  |
|                    | Airbus Defence and Space   |
| 10:30              | Collaborative innovation by industry, academia and the public sector to apply space technology toward achievement of the Sustainable Development Goals   |
|                    | Danielle Wood  |
|                    | Massachusetts Institute of Technology  |

| 10:45 - 11:15 | Coffee Break  |
|---------------|---|
|               |   |
| Session 4     | Space industries for supporting specific Sustainable Development Goals (continued)  |
|               | Moderator: Vincezo Aquaro / Rapporteur: Shirish Ravan   |
| 11:15         | The sciux and virtual education. The experience of Change the World   |
|               | Dousdebes Chia  |
|               | Universidad Distrital Francisco Jose de Caldas Colombia   |
| 11:30         | Empowering women to create space workforce in Nepal   |
|               | Manisha Dwa   |
|               | Nepal Astronomical Society/Women in Astronomy in Nepal  |
| 11:45         | Private Aerospace initiatives helping to reach UN sustainable Development Goals in  |
|               | developing Countries: Ecuadorian experience analysis  |
|               | Juan Jaramillo Rojas  |
|               | Ecuadorian Civilian Space Agency  |
| 12:00         | A Global Space Partnership for the Sustainable Development Goals: Working with Multi-<br>stakeholders to Bring More Socio-Economic Benefits |
|               | Hui Du  |
|               | United Nations Office for Outer Space Affairs   |
| 12:15         | Discussion  |
|               |   |
| 12:30 - 14:00 | Lunch Break   |

# Saturday, 29 September 2018 Afternoon

| Afternoon Session | Key Note Speech   |
|-------------------|---|
|                   |   |
| 14:00             | Space utilisation and new legal challenges  |
|                   | Kai-Uwe Schrogl   |
|                   | President of International Institute of Space Law (IISL)  |
|                   | Breakout Sessions   |
|                   |   |
| 14:20             | <b>Breakout Session 1:</b> Improving access to Earth observation technologies and data for socio-<br>economic benefits  |
|                   | Moderator: Hui Du /Rapporteur: Norma Hernandez  |
|                   | Improved access to Earth observation inspires innovation and allows application of EO in more countries and sectors. Benefits, obstacles and efficient ways of improving access to EO will be explored. |
|                   | <b>Keywords for the discussion</b> : Sustainable Development Goals, Data Sharing, Cloud Computing, Artificial Intelligence, Cubesats, In-Orbit Data Processing, Data Policy                             |

| 14:20             | <b>Breakout Session 2:</b> Developing Programmes to help developing countries with technical advisory services and capacity building support to develop space-based applications   |
|-------------------|--|
|                   | Moderator: Shirish Ravan /Rapporteur: Aimin Niu  |
|                   | Technical advisory services support can assist countries in addressing challenges and benefit from opportuntities. The coupling of technical advisory services with capacity-building can assist to develop the inhouse expertise to fully utilise space services and applications |
|                   | Keywords for the discussion: technical advisory services, capacity-building, space data and applications, awareness raising  |
| 14:20             | <b>Breakout Session 3:</b> Space investments and socio-economic impacts- Raising awareness amongst decision-makers to invest more in space related industries  |
|                   | Moderator: Jorge Del Rio Vera /Rapporteur: Ayami Kojima  |
|                   | Not only national agencies but also numbers of start-ups and industries are investing in space-related activities. The session would discuss on methods to raise awareness among decision-makers.  |
|                   | Keywords for the discussion: Start-ups, Space investments, socio-economic impacts, decision-makers, involvement of general public, outreach  |
| 15:40 - 16:00     | Coffee Break   |
| 16:00             | Breakout Session 1: Improving access to Earth observation technologies and data for socio-<br>economic benefits  |
| 16:00             | Breakout Session 2: Developing programmes to help developing countries with technical advisory services and capacity building support to develop space-based applications  |
| 16:00             | Breakout Session 3: Space investments and socio-economic impacts- Raising awareness amongst decision-makers to invest more in space related industries   |
| Afternoon Session | Presentations of results of breakout sessions - Plenary  |
|                   |  |
| 16:30             | Presentation Breakout session 1  |
| 16:40             | Presentation Breakout session 1  |
| 16:50             | Presentation Breakout session 1  |
| 17:00             | Discussion   |
|                   | Closure  |

| 17:30 | Bus transfer (Meeting Point Central Area) |
|-------|---|
| 18:30 | Reception hosted by ZARM                  |

# Sunday, 30 September 2017 Morning

08:30-09:00

**Registration of Participants** 

| Session         | HSTI Session  |
|-----------------|---|
|                 | Moderator: Ayami Kojima / Rapporteur: Jorge Del Rio Vera                                |
