MAPPING FOR A SUSTAINABLE WORLD

Presentation by

Ruvimbo Doreen Supiya

Final Year Student

MIDLANDS
STATE UNIVERSITY

Community

A global community of young people (university students) and their mentors, it is an entity that supports the capacity, activity and engagement to young fellows that contribute to open data.

YouthMappers has chapters around the globe.

Network

Organizes, collaborates, and implements mapping activities that respond to actual development needs around the globe through open platforms.

Motto

We don't just build maps. We build mappers.

Objectives of YouthMappers

To address developmental issues through open mapping

Build resilient communities

Foster leadership in the young

Push towards the attainment of the Sustainable Development Goals

Capacity building in young people

youth mappers **Activities**

- Mapping Events (remotely through OpenStreetMap and physically using drones, GPS, mobile phone applications)
- Leadership Training
- Skills Development
- Community building and development
- Volunteering
- INNOVATION

EVERYWHERE SHE MAPS

Mapping Invisible and Inaccessible areas of Brazilian Cities to Reduce Inequalities

Mitigating Perennial flooding in Kampala Uganda using Open Geospatial Data

Mapping for Gender Based Violence and Female Genital Mutilation in Zimbabwe

Power Grid Mapping in West Africa

YOUTHMAPPERS FOR CLIMATE ACTION

**MAPPING FOR RESILIENCE: EXTREME HEAT DEATHS
AND MOBILE HOMES IN ARIZONA**

**MAPPING FOR WOMEN'S EVACUATION PLANS DURING
CLIMATE INDUCED DISASTERS IN BANGLADESH**

CYCLONE-IDAI

An unforgotten Zimbabwean story

March 4 - 21, 2019

Chimanimani

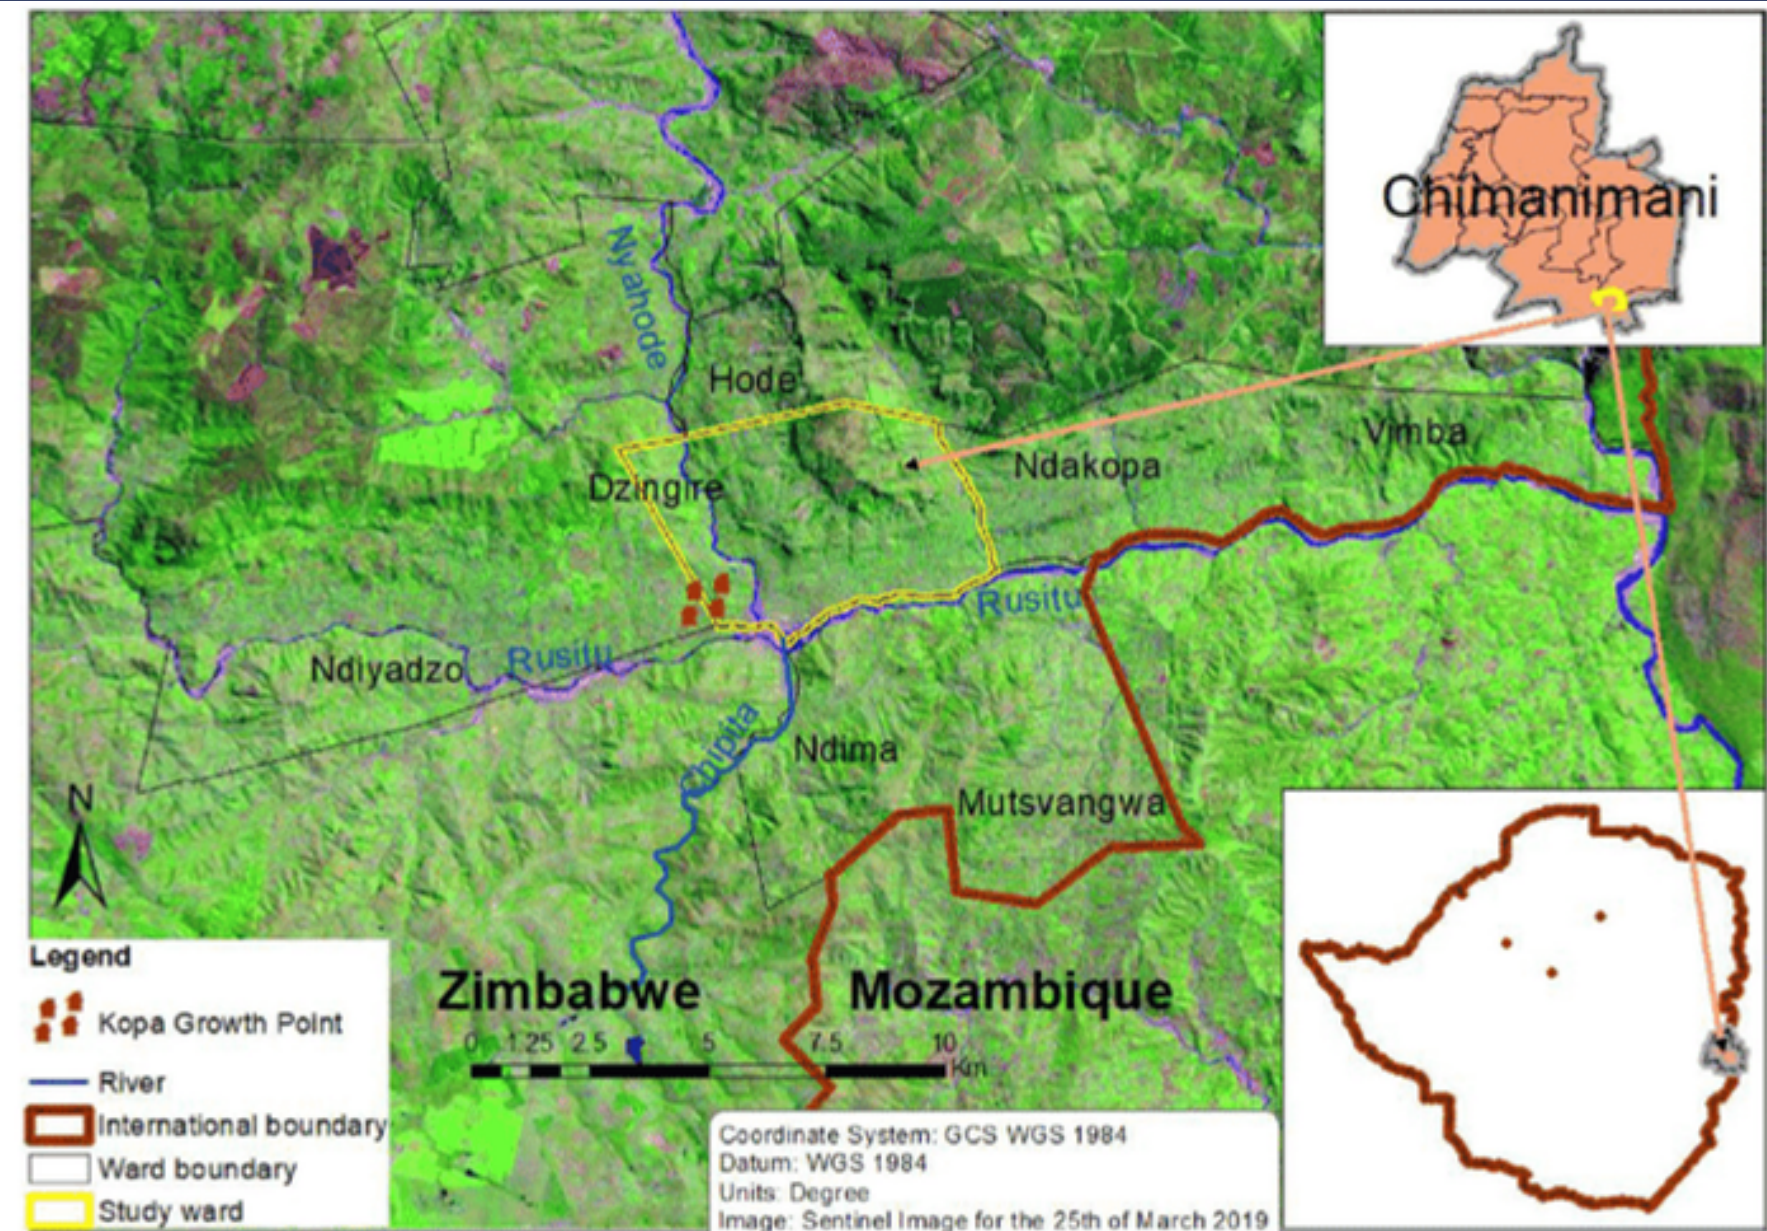

Overview

➤ Data Deprived Community

➤ ZERO Data Infrastructure

➤ No Revenue Based

➤ Communal Tenure Area

CHALLENGES

- Funding for various projects /activities
- Lack of support from the local authorities

Various organizations that need geospatial data can work with different YouthMappers Chapters
