DMS, BI, Asset, Workflow & GIS
Procurement for Government Agencies

Private Company eligible in legal, standing, financing, expertise, resource, experience

LKPP
Lembaga Kebijakan Pengadaan Barang / Jasa Pemerintah

Government Agencies

Government Funding

- Bid Announcement
- Prebid Meeting Session
- Clarification Meeting
- Awarded contract
- Announcement
Remote Sensing Data Management

- Provision hardware and software project
- To Provide MoEFA hardware and software devices to access updated satellite imagery (Landsat) from BRIN (formerly LAPAN) for forest thematic mapping.
• keys of success are well defined user needs and mutual understanding among government offices in data sharing
• Challenges internet connection service
• Optimization of hardware to accommodate data growth and software capabilities to do updated monitoring
Land and Forest Fire Monitoring Dashboard

- Provision hardware and software project
- To provide a platform that accessible by internal task forces of security agency to analyze multiple data source - includes Hot Spot from BRIN-in order to increase its ability to carried out functions of maintaining public safety and national security
- Challenges were unclear defined data source and display information needs
• Key success factors include continuous (daily update) reporting from field agents according to orders from the central office and regular updates on public service information from BRIN.

• Further actions involve enhancing human resource capacity in utilizing technology for field operations.
Take Out Points

1. Compliance on administrative requirements becomes the first rule in serving government office.
2. Identifying key person will ease in understanding user’s needs as well to overcome problem that may occur along the period of work.
3. After sales support is a must.
Thank You!
