RUVIMBO SAMANGA - AMBASSADOR AT LARGE

PRESENTED TO:

31ST UN/IAF WORKSHOP ON SPACE TECHNOLOGIES FOR SOCIO-ECONOMIC
BENEFIT: "SPACE SUSTAINABILITY AS A GAME-CHANGER FOR DEVELOPMENT"

SPACE LAW

AS IT PERTAINS TO INTERNATIONAL COOPERATION

What is The Milo Space Science Institute?

- **Milo** is a **non-profit membership organization** led by ASU in collaboration with Lockheed.
- Milo was established in 2018 to **help make space science and exploration accessible** to countries and organizations around the world that want to increase their knowledge, infrastructure, and human capital and participate more deeply in the global space economy.
- The goals of the Milo Institute are to **broaden opportunities** for space science mission participation, to **provide affordable hands-on training** from experienced organizations, and to **foster inspiration and a sense of scientific pride** in participating nations.

Three Levels of Involvement:

1. Capacity Building

2. Infrastructure

3. Space Science Missions
