TARGETS AND INDICATORS

Target

2.1

By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round

Indicators ▾

Target

2.2

By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons

Indicators ▾

Target

2.3

By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment

Indicators ▾

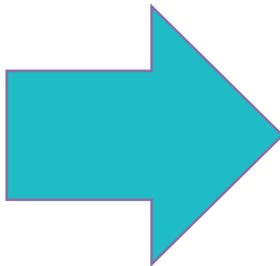

Target

2.4

By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality

Indicators ▾

UNOOSA/AVIO COOPERATION

- ❑ Agreement to cooperate on providing institutions from UN Member States, in particular developing countries, with the opportunity to apply to use, free of charge, satellite slots for 1U Cubesat or aggregates
- ❑ Working on several 1U or 3U (aggregated volume is 3U)
- ❑ Inclusiveness is a positive factor
- ❑ Partnerships are encouraged
