The vision of the **Geneva Digital Health Hub** is to unlock the full potential of digital for efficient, equitable, and impactful health systems through:

- **Enabling science-based policy and decision making** that facilitates the development of *global* policies and norms for responsible digital health implementations based on advanced knowledge management approaches.
- **Advancing sustainable value creation** through strengthened *national and sub-national* digital health ecosystems that embed global norms and best practices, including ESG.
- **Fostering active learning and collaboration** to improve *institutional* capacities and cooperation to support responsible digital health development and implementation and reduce fragmentation of efforts.

A banner for the Geneva Health Forum. The background is a scenic view of Geneva, Switzerland, featuring the city's architecture, the Lake Lemano, and the Jet d'Eau fountain. A large, irregular orange brushstroke is overlaid on the center of the image. Text is placed within and around this brushstroke. At the top, the dates '3-5 May 2022, CICG, Geneva and Online' are written in a dark blue font. Below that, the title 'GENEVA HEALTH FORUM' is written in large, bold, white capital letters. Underneath the title, the tagline 'THE FORUM THAT BRINGS TOGETHER KEY ACTORS OF GLOBAL HEALTH' is written in a smaller, dark blue font. At the bottom of the brushstroke, there are two buttons: a blue one with the word 'ABOUT' in white and a green one with the word 'CALL' in white. On the right side of the banner, there is a vertical pink bar with the text 'Geneva Health Forum' written vertically in white. At the bottom right corner of the banner, there is a small circular logo of the University of Geneva.

3-5 May 2022, CICG, Geneva and Online

# GENEVA HEALTH FORUM

THE FORUM THAT BRINGS TOGETHER  
KEY ACTORS OF GLOBAL HEALTH
