## electronic Travel Advisory

Hwa Saup Lee, GIS Officer

Safety and Security Information Management Section (SSIMS) | Enterprise Solution Service – Asia (ESS-Asia)

Office of Information and Communications Technology (OICT) | United Nations

UN Sider International Workshop

Dec 2022

# Enterprise Solution Services | OICT | UN

## Mandate

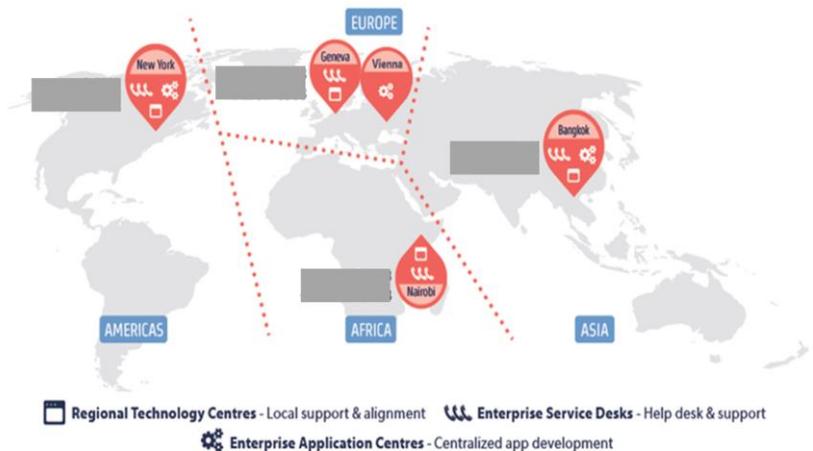

- Harness the potential of information and communications technology to support the work of the United Nations in the areas of peace and security, sustainable development, humanitarian aid, human rights, and international law – ICT Strategy (A/69/517), the General Assembly (A/RES/69/262)

## Scope

- Develop and maintain applications supporting corporate business processes
- Align IT solutions with business strategy
- Enforce utilization of standard technologies, compliance with architecture principles
- Disaster Recovery and Business Continuity
- Information security

## Team

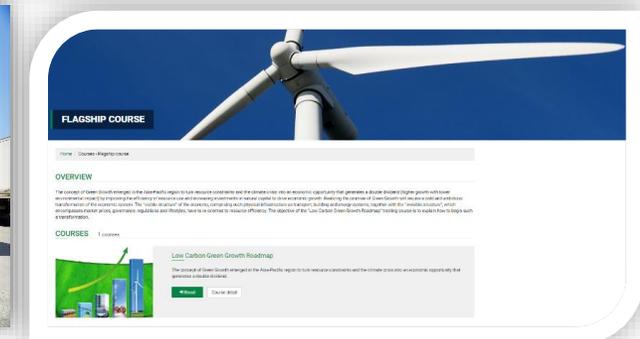

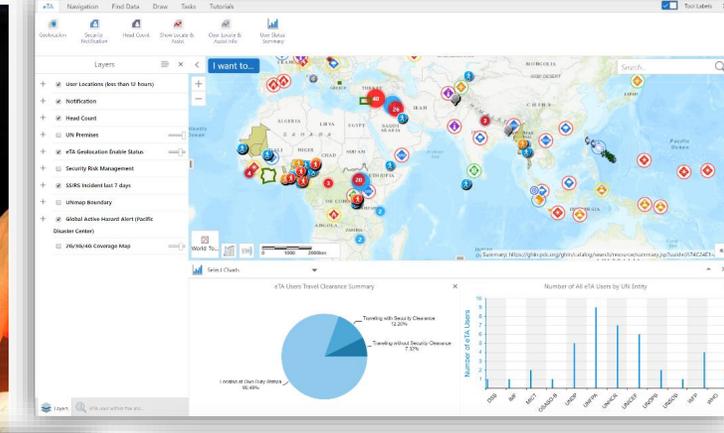

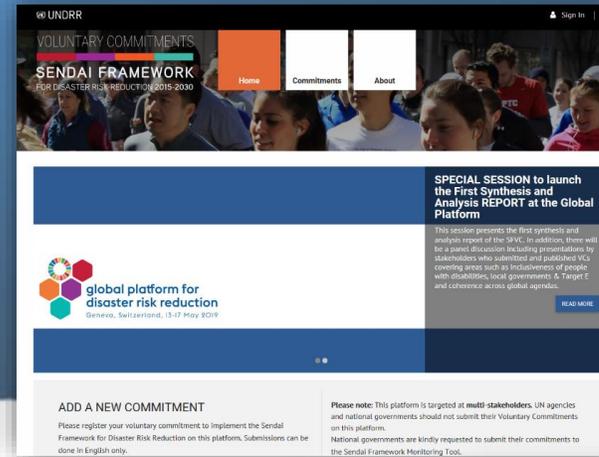

- 2 centers: Bangkok, New York
- Virtual team: 200+ Personnel in Bangkok, New York and Valencia

# Development Focus

## Platforms and Systems

- Customer Relationship Management Systems (CRM)
- Enterprise Resource Planning (ERP)
- Learning Management Systems (LMS)
- Content Management Systems (CMS)
- Information Management Systems (IMS)
- Mobile Applications
- Citizen Engagement

# Highlighted Project: eTA

# August 2003

## Who is there?

Name	Age	Nationality	Role
Sergio Vieira de Mello	55	Egypt	UNOCI Secretary for Vieira de Mello
Nadia Younes	57	Egypt	UNOCI Humanitarian affairs officer
Fiona Watson	35	United Kingdom	UNOCI Information assistant
Jean-Sélim Kanaan	33	Egypt, Italy	UNOCI Secretary for Vieira de Mello
Richard Hooper	43	France	UNOCI Humanitarian affairs officer
Masoud Martin Char	56	Spain	UNOCI Driver
Christopher Klein-Denkman	32	Canada	UNOCI Security guard
Raham Al-Farra	29	Jordan	United Nations Monitoring, Verification and Inspection Commission (UNMOVIC)
Martha Teas	47	United States	Christian Children's Fund
Leen Assad Al-Qadi	32	Iraq	Director of peace and conflict studies at the U.S. Council on Foreign Relations
Rafilo Buenaventura	47	Philippines	World Bank
Reza Hosseini	43	Iran	Contractor
Ihsan Taha Hussein	26	Iraq	Working for a UN subcontractor (Canal Hotel cafeteria worker)
Basim Mahmud Utawi	40	Iraq	Driver-Interpreter, Christian Children's Fund
Raid Shakir Mustafa Al-Nahawi	32	Iraq	Electrician
Gillian Clark	47	Canada	Electrician
Arthur Holton	54	United States	Electrician
Dr. Alqa Ahmad Sa'ada	54	Iraq	Electrician
Wahid Saleem Saleh	33	Iraq	Electrician
Saeed Hameed Al-Obadi	34	Iraq	Electrician
Omar Kattan Mohamed Al-Obadi	34	Iraq	Electrician
Muhammad Ahmad Saman al-Isboby	45	Iraq	Electrician

Canal Hotel bombing, Baghdad, August 2003

# December 2007

UN Photo/Evan Schneider | A building damaged by the 11 December 2007 terrorist attack across the street from the UN Headquarters complex in Algiers. The bombing claimed the lives of 17 United Nations workers.

*Algiers, December 2007 – VIED ripped through an UN office killed 17 UN Staff*

## “Towards a Culture of Security and Accountability”

The Report of the Independent Panel on Safety and Security of UN Personnel and Premises Worldwide

*“...Information technology is not a luxury; it is a central instrument for delivery of security services. The Panel strongly underlines the urgent need to develop the IT support function of DSS for the field and Headquarters.”*

*Without a serious level of investment within the overall framework of the UN’s information technology and knowledge development, DSS will not have the capacity to exercise its leadership in UN security....”*

*“The Panel observes that the current Integrated Security Clearance and Tracking (ISECT) system, which has greatly improved the process for security clearance, has potential beyond its current limited use. “*

# Build and manage systems and tools for the UN Security Management System (UNSMS)

The image displays the UN Security Management System (UNSMS) interface across multiple platforms. The central screenshot shows the main website dashboard, titled "United Nations Department of Safety and Security UNSMIN". The dashboard features a navigation menu with options like Home, Country, Library, Reports, People Finder, IASMIN, Aviation, SCS, Coms Cen, EO, IMO, SSIMS, and Help. Below the navigation, the "Home" section is titled "Safety and Security Information Management Systems" and contains a grid of 15 system icons: CSD, eTA, GeoHub, LCSSB, PMS, Podcasts, Premises, SCS, SLS, SRM, SSIRS, TA, Training, and TRIP. Below the grid, there are sections for "UNSS Branding Resources" and "HR and Staff Development Resources".

On the left, a screenshot of the "eTA" (Electronic Travel Advisory Application) interface is shown, with the tagline "Safer • Anywhere • Anytime". It includes a "Home" section with various service tiles such as "Access Pass Request", "UN Secretariat Emergency Preparedness", "TRIP Tools", "UNSS Security Learning Catalogue", "PEP-KITS?", "Road Safety Campaign", "Travel Alert", "United Nations Booking Hub", "Events & Conferences", "Smartphone devices and advice", "Update your Profile", "Security Clearances", "Travel Advisory", "bSAFE", and "Search Directory".

On the right, a mobile app screenshot shows a map of Bangkok City and Vicinities, Thailand, with a notification for "Possible traffic blockage" around a UN premises. The notification text reads: "Due to motorcade movements, there has been a high level of traffic congestion around the UN premises. Advisory: To relieve the traffic congestion, North Gate will be open for vehicles to access. You are 82 meters away from this security perimeter." The app interface includes a navigation bar with "Location", "Emergency", "Information", and "My profile".

Below the mobile app, a desktop map application is shown, displaying a world map with numerous location markers. The map application has a "Layers" panel on the left with the following items: "eTA User / Assets Locations", "Last known location recorded within 12 hr", "Asset Locations", "Notification / Head Count", "eTA Geolocation Enable Status", "UNSSMIN Data", "SSRS Incident last 7 days", "UN Premises", "UN Premises", "UN Office", "Temporary UN Office", "Security Risk Management", "Designated Area Boundary", "SRM Risk & Threat Level", and "SRM Present Risk". The map application also includes a search bar, navigation controls, and a scale bar.

20+ systems, 1 core database, 2 portals, mobile apps

# TRIP (Travel Request Information Process)

Security Clearances requests processed:

- Daily: over 15,000 (pre-COVID)
- Annually: over 3 Million
- Total: over 18 Million (since 2005)

## eTA new release

The latest version of the eTA is 1.9.0 as of 30 May 2022. Devices running older versions may not work as expected.

Please advise all users of the eTA app to download the latest version as soon as possible.

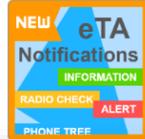

Users can verify which version is running on their mobile device in the My profile page

### Welcome to the electronic Travel Advisory (eTA) !

Electronic Travel Advisory (eTA) is the new mobile APP that will enable all UN personnel to receive security communications and to access emergency contact information, travel advisories, security clearance status, locations and directions to UN premises and more. It is also a set of GIS and UNSMIN tools that enable UNSMS security personnel to send messages that are tailored to personnel in specific areas, and to locate personnel in cases of emergency.

Currently only authorized UNDSS personnel have access to the eTA Security Management Tools below.

## ETA Message Tool

Select a Notification Type

- Quick Notification**  
 Send a message through the eTA App to all UN personnel in a Security Risk Management Area. The importance of the message can be: information, warning or alert.
- Quick Notification with SMS**  
 Send a message through eTA and an SMS to all UN personnel in a Security Risk Management Area. The importance of the message can be: information, warning or alert. NB: This module sends SMS messages to phones registered in TRIP profile. Keep in mind that sending SMS's through this module incurs an extra cost.
- Periodic Phone tree exercise**  
 Send an eTA message to all UN Personnel a Security Risk Management Area to confirm that they and their dependents are reachable in case of an emergency. This exercise is normally performed quarterly by all AFPF in the DA.
- Security Communications System Check**  
 Send a daily Comms Check message through eTA to all UN personnel in a Security Risk management Area to confirm they are reachable. This process is normally only performed in high risk areas and can be performed more than one per day.
- Accounting for Staff Mechanism**  
 Send an eTA message to all UN Personnel in a Security Risk Management Area requesting their and their dependents status (Safe / Not Safe) during an emergency.

# How eTA supports - UN Personnel Evacuation during Ukraine Crisis

Evacuation Plan

UN personnel by Duty Station before 24 Feb. 2022

1 March 2022 Russian forces' position in URK

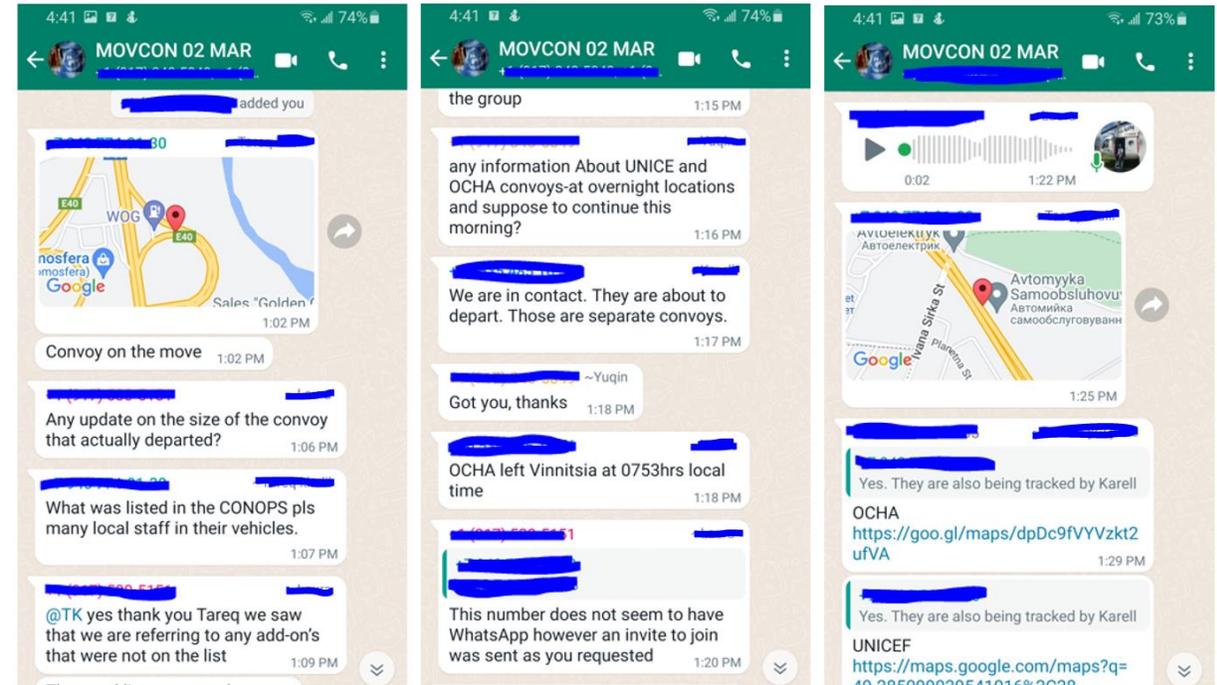

# How eTA supports - UN Personnel Evacuation during Ukraine Crisis

## MOVECON ConOps

- Evacuate UN personnel and dependents from hostile territories to Safe heaven or safer areas of the country
- Main evacuation conducted from 1<sup>st</sup> March to 5<sup>th</sup> March

## Challenges

- Personnel vehicles with **no vehicle tracking systems**
- **More than 100+ vehicles** in the convoy daily
- Convoy head and tails **stretched over miles**
- **Multiple movements** with different departure/arrival locations & time over **several days**
- **Not enough VHF radio** units with GPS capacity (only for convoy leaders)
- Only available communication was WhatsApp, cell phone or SMS message
- Hard to get a clear picture of the current convoy movement

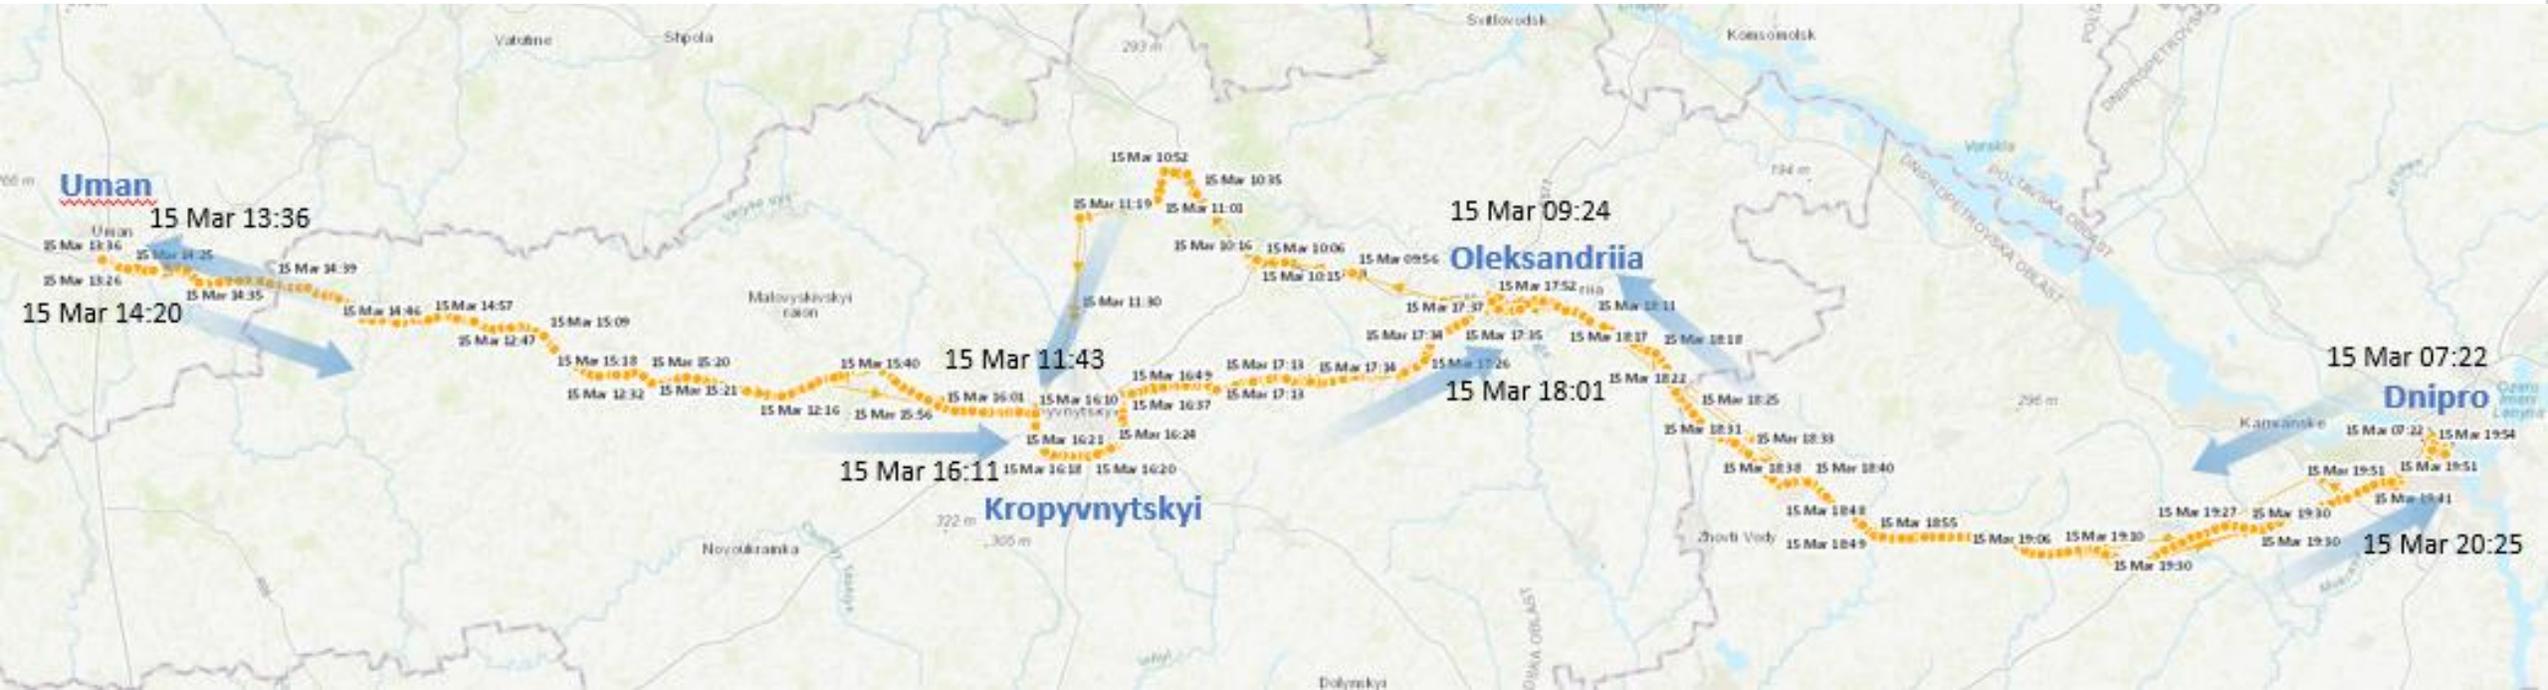

2<sup>nd</sup> March MOVCON WhatsApp communication

# How eTA supports - UN Personnel Evacuation during Ukraine Crisis

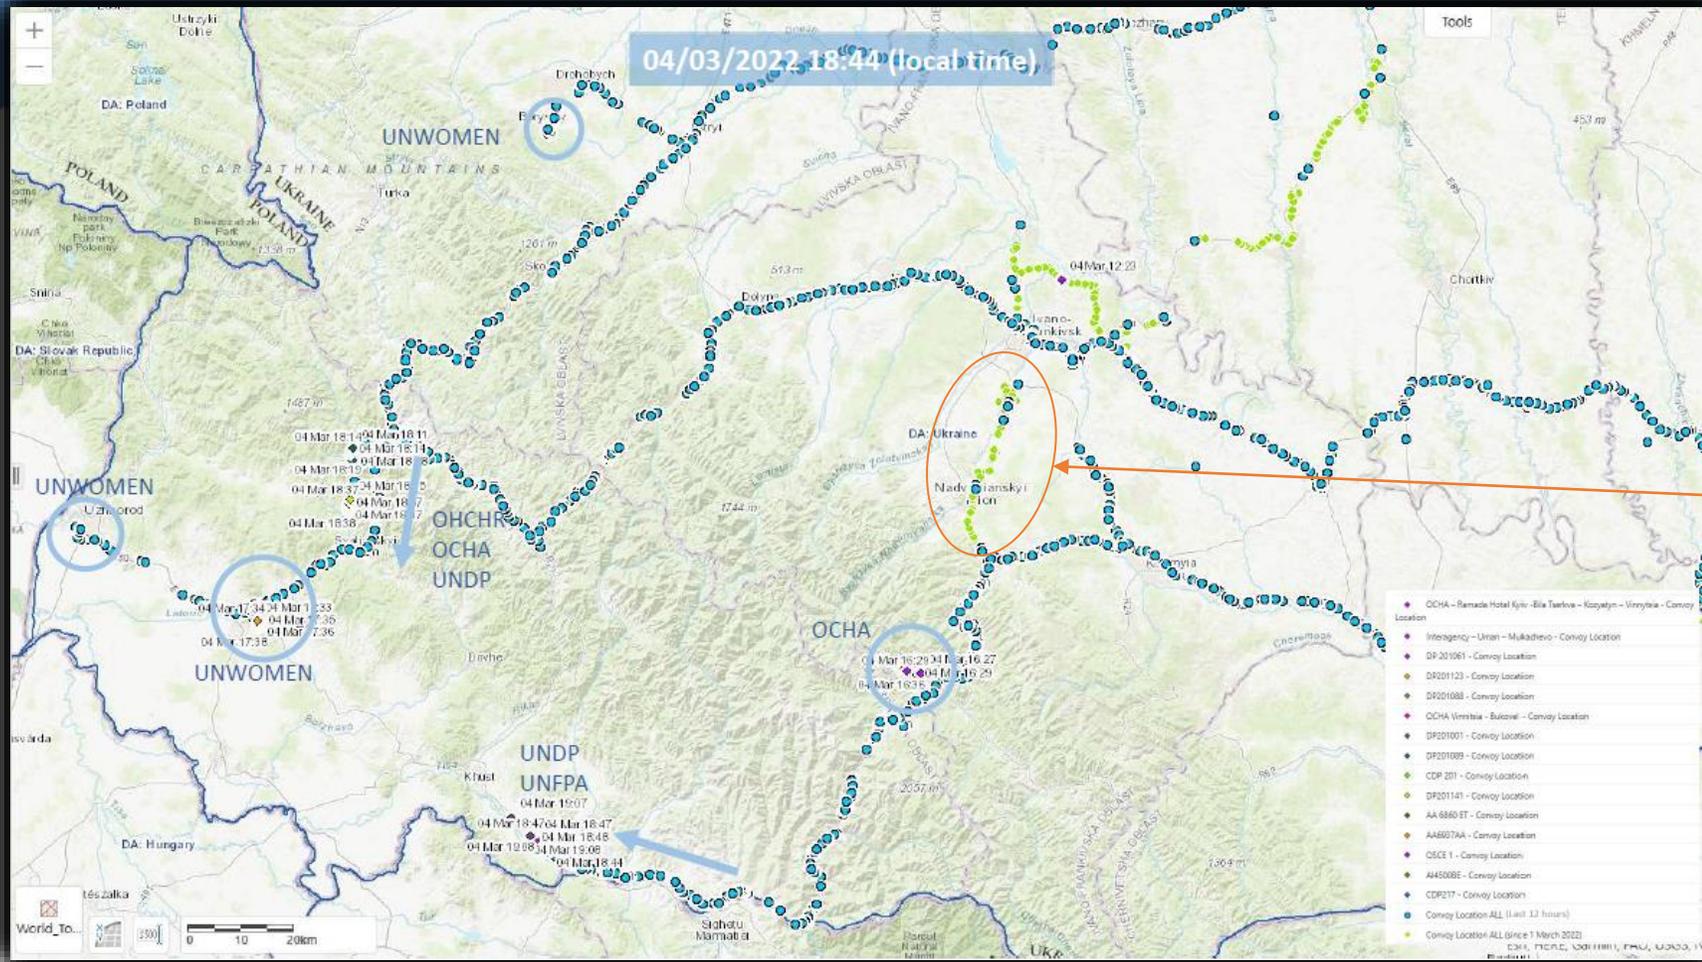

## eTA Convoy Tracking Support:

- Installed and configured eTA mobile app on the site – no special equipment/technician required
- Visualized the convoy movement (100+ vehicles) near real time on the eTA command center
- Provided live view of convoy status to UNOCC, UNDSS CommCen and the convoy mission commander

# How eTA supports - UN Personnel Evacuation during Ukraine Crisis

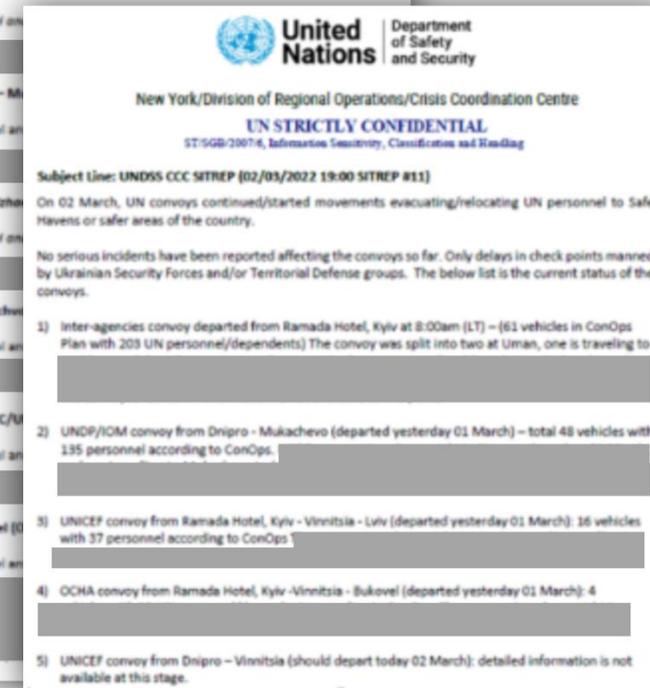

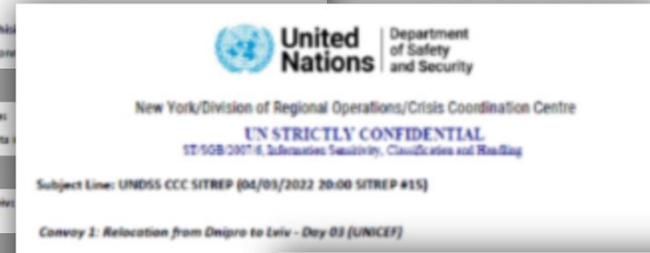

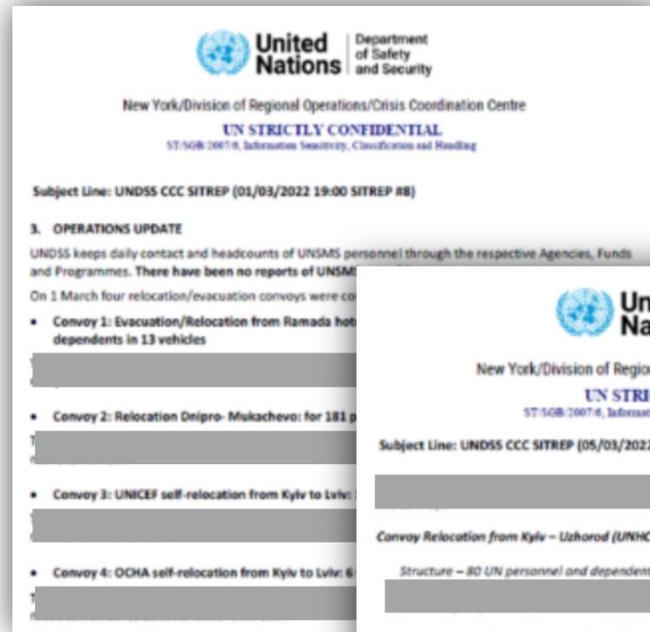

## 04 March Convoy Movement tracking by eTA

- DSS CommCen and UNOCC lost communication with OCHA convoy for several hours
- eTA still reported their locations with a limited mobile coverage

# How eTA supports - UN Personnel Evacuation during Ukraine Crisis

Date	# of Convoy Movements	# UN Personnel in Convoy	# of Vehicle in Convoy
1st March 2022	4	302	93
2nd March 2022	5	392	129
3rd March 2022	7	506	146
4th March 2022	6	298	105
5th March 2022	3	103	32
