

International Committee on
Global Navigation Satellite Systems

Seventh Meeting of the International Committee on Global Navigation Satellite Systems (ICG)

Meeting of the Working Group B on GNSS Service Performance Enhancement and Applications

7 and 9 November 2012

Beijing, China

PROVISIONAL AGENDA

Wednesday, 7 November 2012

14:00 – 17:00	WG-B on GNSS Service Performance Enhancement and Applications <i>Co-chairs: S. Wallner, European Space Agency A. S. Ganeshan, Indian Space Research Organization</i>	
14:00 – 14:20	Opening Remarks	
	➤ Introduction to WG-B Meeting	S. WALLNER ESA
	➤ Approval of the agenda	All
	➤ Outcomes of the WG-B Application Subgroup Meeting	X. ZHAN Shanghai Jiao Tong University, China; M. MINE Japan
14:20 – 15:10	GNSS Space Service Volume	
	➤ Enabling a Fully Interoperable GNSS Space Service Volume	J. MILLER, M. MOREAU NASA

	➤ Galileo and Space Service Volume	S. WALLNER ESA
	➤ Michibiki and Space Service Volume	Japan
15:10 – 15:30	Coffee Break	
15:30 – 16:45	Performance Enhancement	
	➤ RAIM for Ship and Rig Management	V. KROPP University FAF Munich, Germany
	➤ Cyclic Code Shift Keying Performance of QZSS LEX Signal	Japan
	➤ Improving Performance of Navigation Service with New Signals by Reducing Multipath	A. VEYTSEL, Moscow Technical University, Russia
	➤ BADEC: Current Status, Progress and Planning	Y. YANG, International Cooperation Research Center, China
16:45 – 17:00	Summary and Recommendations	
	Summary and Proposal of Recommendations	Co-chairs

Thursday, 8 November 2012

09:00 – 10:30	Working Group Parallel Session	
	WG-B to prepare conclusions and draft recommendations for the ICG consideration to be presented at the second plenary session of the ICG.
