**Committee on the Peaceful Uses
of Outer Space**

Legal Subcommittee

Forty-seventh session

31 March - 11 April 2008

Item 11 of the agenda*

Capacity-building in space law

Education Opportunities in Space Law: a Directory

Note by the Secretariat

In response to the recommendation of the Legal Subcommittee at its forty-sixth session in 2007, the Office for Outer Space Affairs updated the Directory of education opportunities in space law.

The Directory contains information on the respective institutions' areas of specialization, the educational programmes offered, the facilities available, the prerequisite qualifications, financial information, fellowship opportunities and opportunities for international cooperation, as well as reference to educational material easily available on the internet. Addresses and contact points for further information have also been included.

The updated Directory is also being made available on the website of the Office for Outer Space Affairs (www.unoosa.org).

* A/AC.105/C.2/L.264.

EDUCATION OPPORTUNITIES IN SPACE LAW
A directory

2008 edition

Introduction

The increasing number of States involved in space activities has emphasized the need for effective laws and policies on space activities, not just on an international level but also on the national level. The successful operation of space law, policies and institutions in a country relies on the presence of suitable professionals. Institutions that address the subject of space law and policy play an important role in promoting national expertise and capacity in this field.

In response to the recommendation of the Legal Subcommittee of the Committee on the Peaceful Uses of Outer Space at its forty-second session, in 2003, the Office for Outer Space Affairs invited a number of institutions to provide the Office with information on their programmes relating to space law. The directory of education opportunities in space law has been compiled based on the information received from those institutions and updated annually.

The directory contains information on the respective institutions' areas of specialization, the educational programmes offered, the facilities available, the prerequisite qualifications, financial information, fellowship opportunities and opportunities for international cooperation, as well as reference to educational material easily available on the internet. Addresses and contact points for further information have also been included.

For ease of reference the information has been arranged in alphabetical order by country. An effort has been made to present, as accurately as possible, the information provided by the responding institutions. However, programmes frequently change and users of this directory who are interested in a particular programme are urged to contact the institution for current detailed information.

The list of countries and institutions contained in this directory is not exhaustive and has been updated on the basis of the information received in the past year. The Office welcomes additional and/or updated information from Member States and education institutions teaching space law or space law related subjects and sources of information.

It is hoped that this directory will be assistance to Member States and will promote co-operation among Member States and education institutions in relation to space law. In particular, it is hoped that information on education opportunities will assist developing countries in establishing indigenous capabilities in space law.

Comments, queries and information with respect to this directory, including additional submissions or updated information, should be sent to the following address:

Contact Person: Ms. Maria d'Amico
 Prof. Dr. Ram Jakhu

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Graduate Certificate in Air and Space Law; Master of Laws (LL.M); Doctor of Civil Law (D.C.L.).
2. **Courses offered in space law or related to space law:** General Principles of Space Law (3 credits); Law of Space Applications (3 credits); Government Regulation of Space Activities (3 credits).
3. (a) **Number of faculty members in the programme:** 10 (full-time, part-time and visiting)
 (b) **Number of students in the programme:** 20
4. **Duration of the programme:**
Graduate Certificate in Air and Space Law: awarded after at least one term (4 months) of residence and on completion of a minimum of 15 credits of course work.
LL.M. in Air and Space Law: a 45-credit programme with a minimum duration of three academic terms (full-time).
Doctor of Civil Law: a research degree. The principal basis for evaluation is a doctoral thesis, which must constitute an original contribution to legal scholarship. Candidates who enter the program in the first year, called DCL1, must follow a program of at least three years' residence in the Faculty. Residence refers to the numbers of terms or years students must be registered on a full-time basis to complete their program. Students holding a with-thesis LL.M. are usually admitted into DCL2, which means that the minimum residence requirement is reduced to two years of study beyond the Master's degree.
5. **Language of instruction:** English
6. **Admission Standards:** Language requirements: Non-Canadian applicants must provide proof of competence in oral and written English. An official test score is required unless (a) the applicant's

mother tongue is English, or (b) the applicant has completed an undergraduate degree from a recognized institution where English is the language of instruction. Applicants must achieve a minimum TOEFL score of 577 (233 on the computer-based test) or 7.0 in the IELTS. Non-Canadian applicants whose mother tongue is French must achieve a minimum TOEFL score of 567 (227 computer-based) or an IELTS score of 7. Students can write essays, examinations and theses in French, even where the course is taught in English.

Candidates for admission must possess a Bachelor of Laws degree or an equivalent law degree from an accredited university with a cumulative grade point average of 3.0/4.0, or its equivalent (Upper Second Class). However, applicants for the Graduate Certificate in Air and Space Law who do not hold a law degree must fulfil the following two requirements: Have an undergraduate university degree in another discipline, and possess sufficient professional experience in the fields of Air and/or Space Law to compensate for the lack of a law degree (as determined by the Graduate Admissions Committee).

Only applicants demonstrating excellent academic ability will be considered for admission to the doctoral program. Candidates must hold both a Bachelor of Laws degree and a Master of Laws degree. Admission to the D.C.L. program occurs only when: the candidate has completed a graduate law degree with thesis at McGill or at another university, and; the Graduate Admissions Committee is satisfied that the quality of his or her previous research is sufficient to justify admission to a doctoral program. The latter usually requires review of the completed Master's thesis. Applicants not holding a McGill Master's degree or its equivalent are generally not admitted directly to the D.C.L. program, but are required first to complete the LL.M. degree with distinction.

7. **Cost of the programme:** see:

<http://www.mcgill.ca/student-accounts/fees/tuition/gradfees/ma/>

(a) **Tuition:** Graduate Certificate: one term of full-time study is \$1,606 Canadian dollars for Quebec residents and \$3,292 Canadian dollars for Non-Quebec residents; Master degree: three terms of full time study (minimum) are \$4,818 Canadian dollars for Quebec residents and \$9,876 Canadian dollars for non-Quebec residents and \$19,698 Canadian dollars for international students; Doctoral Degree: two-three years of full-time study are \$3,211 Canadian dollars per year for Quebec residents and for non-Quebec residents, and \$11,919 Canadian dollar per year for international students.

(b) **Textbooks:** around \$800 CAN

(c) **Room and board:** \$ 800 CAN per month

(d) **Other relevant costs:** Transportation (Public): \$ 600 CAN; Clothing: \$ 500 CAN; Personal Expenses: (including laundry, toiletries, etc.): \$ 2400 CAN; Compulsory Health Insurance: \$ 639 CAN. Additional expenses for dependents are estimated as follows: 1 dependent - \$ 3360 CAN; 2 dependents - \$ 6400 CAN; Each additional dependent - \$ 2240 CAN.

8. **Availability of fellowships/scholarships for foreign students:** Yes

If YES, number of fellowships/scholarships available: see

<http://www.mcgill.ca/law-studies/funding/>

9. **Other relevant information:** The Institute of Air and Space Law is situated in Montreal, which is an extraordinarily cosmopolitan city. It is bilingual and multi-cultural. It is bi-legal as well, an area where the civil and common law converge. The Institute has been teaching Air and Space law for over 50 years and its Space Law Program is the most extensive and advanced in the world. Today, the Institute has more than 800 alumni sprinkled across more than 120 countries around the world. In addition, the Institute has a history of 25 years of the *Annals of Air & Space Law*, a highly respected and valuable compendium of important research.

ACADEMIC PROGRAMMES

1. **Courses offered in space law or related to space law:** ECSL Summer Course on Space Law and Policy
2. (a) **Number of faculty members in the programme:** about 10
 (b) **Number of students in the programme:** about 40
3. **Duration of the programme:** 2 weeks
4. **Language of instruction:** English
5. **Admission Standards:** upon evaluation of the academic background and career plans
6. **Cost of the programme:**
 - (a) **Tuition:** 200 Euro
 - (b) **Textbooks:** covered
 - (c) **Room and board:** covered
 - (d) **Other relevant costs:** lunches
7. **Other relevant information:** This Summer Course organized by ECSL with the support of a hosting university (1992 : Messina, Italy ; 1993 : Toulouse, France ; 1994 : Granada, Spain ; 1995 : Aberdeen, United Kingdom ; 1996 : Leiden, The Netherlands ; 1997 : Rovaniemi, Finland ; 1998 : Brest, France ; 1999: Geneva, Switzerland ; 2000 : Cologne, Germany ; 2001 : Nice, France ; 2002 : La Rochelle, France ; 2003 : Leuven, Belgium ; 2004 : Graz, Austria ; 2005 : Terni, Italy ; 2006 : Noordwijk, The Netherlands ; 2007 : Noordwijk, The Netherlands) and the European Space Agency gathers an increasing number of universities. During two weeks, about 40 students attend intensive courses given by professors and practitioners on the international legal framework of space activities (UN Resolutions, space treaties) and on other legal issues in space applications (commercialisation of space activities, telecommunications, remote-sensing, launching states, intellectual property rights, etc). Students have the opportunity to meet practitioners,

to learn from their experience, and to visit space industries. The Course's main objective is to stimulate students' interest in this law field and to provide them with a basic, solid knowledge upon which to build up their professional career or their further academic research.

Contact Person: jadp-request@sfc.keio.ac.jp

Dr Setsuko AOKI: aosets@sfc.keio.ac.jp

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Degree specifically for space law is not provided. Space law course is included in Graduate School of Media & Governance. A graduate student can obtain Master's and Doctor's degree of either Global Governance,

Human Security and Communications, or Media and Governance depending on the programs he or she chooses.

2. **Courses offered in space law or related to space law:** Space law is one of the subjects in Global Governance, Human Security and Communications and Environmental Governance in the Graduate School of Media and Governance.
3. (a) **Number of faculty members in the programme:** One faculty with tenure. Several ad hoc faculties from industry, government agencies and space-related area.
(b) **Number of students in the programme:** Master's course 2; Doctor's course 1
4. **Duration of the programme:** 2 years for Master's Course ; 3 years for Doctor's course
5. **Language of instruction:** English (Japanese in a class when all students are Japanese)
6. **Admission Standards:** <http://www.sfc.keio.ac.jp> and <http://www.keio.ac.jp>
7. **Cost of the programme:**
(a) **Tuition:** almost \$10,000 and an admittance fee for the first year is almost \$3000. For detailed information, see:
<http://www.sfc.keio.ac.jp/prospective/aboutmag/scholarship.html.en>
(b) **Textbooks:** not included in tuition fees. Cost depending on the programme one chooses.
(c) **Room and board:** none
8. (a) **Availability of fellowships/scholarships for foreign students:** yes
(b) **If YES, number of fellowships/scholarships available:**
There are two types of scholarships available to students. The first type of scholarship requires no repayment, but the second type is in the form of a loan and therefore requires repayment after graduation. A Keio University student loan charges a lower interest rate compared to private financial institutions and offers a reasonable repayment plan. Although each scholarship has different conditions students may receive more than one scholarship which can prove to be of some advantage for them. More information at:
<http://www.keio.ac.jp/english/admissions/scholarships.html>
9. **Other relevant information:** Foreign students can apply for the Ministry for Education, Culture, Sports, Science and Technology (MEXT) scholarship in his or her own country through the embassy of Japan in that country . MEXT scholarship offers one of the best conditions to foreign students.

OTHER INSTITUTIONS:

Other campus of Keio University also offers space law courses, including Faculty of Law and Graduate School of System Design Management (CDM). More detailed information at:
<http://www.keio.ac.jp>

THE NETHERLANDS

Leiden University, International Institute of Air and Space Law

(last update April 2008)

Address: Faculty of Law, Steenschuur 25, 2311 XK Leiden, The Netherlands
Tel: +31 (0) 71 527 7724
Fax: +31 (0) 71 527 7600
Web site: <http://www.leidenuniv.nl>
Email: P.vanderWulp@law.leidenuniv.nl

Contact Person: Ms. T.L. Masson-Zwaan, Deputy Director, t.l.masson@law.leidenuniv.nl

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Master of Advanced Studies in Air and Space Law. The Master's of Advanced Studies programme in Air and Space Law is a combination of public air law, private air law and space law, both from an international and European perspective. The programme has been running since September 2000. As of September 2005, a blended learning version of the programme is also offered. The programme is offered by the law school's renowned Institute of Air and Space Law. The programme is designed for students who hold a full law degree, pursuing careers in law firms or in consulting firms having aviation and space law practice; legal departments of airports and airlines; aerospace companies; civil aviation authorities, ministries or international, regional and national organisations involved in aviation and space activities.
2. **Courses offered in space law or related to space law:** Public Air Law, Private Air Law, Principles and Practices of Legal Scholarship, Space Law and Policy, Air Transport Competition Law and Policy, EU Aerospace Law, Case Studies Space Law and Policy, Internship.
3. (a) **Number of faculty members in the programme:** Dr. P.M.J. Mendes de Leon, Director, Ms T.I. Masson-Zwaan, Deputy Director, Mr. F. Tronchetti, Academic Coordinator. In addition, visiting professors from other countries and distinguished legal practitioners teach in the programme's courses. An intensive interaction between students and teachers is fostered.
(b) **Number of students in the programme:** Varies from 15-20, including Face-to-Face and Blended Learning programme. In addition, there is a number of candidates preparing a PhD in air or space law
4. **Duration of the programme:** 1 year (with option to spread over 2 years). Start date: September/February.
5. **Language of instruction:** English
6. **Admission Standards:** All applicants must:
 - Have completed a full law degree (offering access to legal practice) with sufficient knowledge of international law. *A full law degree is considered a degree that gives access to the legal professions in the country where the degree was obtained.* Prior knowledge of Air and Space Law is an asset, but not compulsory; Candidates for the blended learning version of the Advanced Master's programme must have at least five years of professional experience in the field of air and/or space activities
 - Demonstrate a sufficiently high performance in a general law programme, validated by marks on their university degree/transcript and accompanying mark criteria, and letters of recommendation from current or previous professors and/or employers;
 - Have sufficient knowledge of European Law and international organisations. Applicants whose legal studies did not include these subject areas may be admitted provided they take the compulsory supplementary teaching offered;
 - Demonstrate a keen interest in aviation and space activities and the legal implications thereof, illustrated by, for example, a letter of motivation, past experience related to the subject i.e., professional experience, publications, conference papers;
 - Have proven English-language proficiency, validated through a TOEFL test (600 paper based/250 computer based or 100 Internet based) or IELTS test (7.0), occasionally complemented by a telephone interview. Students who do not meet this level of English but have a minimum score of IELTS 6.0 or equivalent, may be offered a place on the programme

on the condition that they attend a two-month pre-session English course at Leiden University.

- Application deadline: April 1st for admission in September and October 15th for admission in February.

7. **Cost of the programme:** For the LL.M
(a) **Tuition:** € 15,000 p/y (2008-2009) / € 15,500 (2008-2009) for the blended learning option. The fee includes specified reading materials, excursions, attendance at selected conferences, social events organised by the institute, etc. All fees are subject to annual change.
8. **Availability of fellowships/scholarships for foreign students:** Leiden Law School offers a small number of scholarships, in addition to funding opportunities offered by the university and externally.
9. **Other relevant information:**
Mode of Study: Face-to-Face / Blended Learning / Modular. Blended learning participants largely work from their homes or offices and communicate with the teaching staff through Internet, using various new teaching techniques. Participants come to Leiden three times during the course for a period of two weeks, in order to follow classical teaching and to collect study materials for their thesis. Thereafter, students write their thesis 'at home', and graduation takes place at the end of August, jointly with the participants in the regular curriculum.
All courses listed in the full-time programme can also be taken on a single-course (modular) basis

MIT OpenCourseWare

(last update February 2005)

Address: Massachusetts Institute of Technology, Room 9-213, 77 Massachusetts Avenue
Cambridge, MA 02139, United States of America
Tel: +1 617 452 3621
Fax: +1 617 253 2115
Web site: <http://ocw.mit.edu/>
Email: <mailto:ocw@mit.edu>

Contact Person: Jon Paul Potts, MIT OCW Communications Manager

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** MIT OpenCourseWare is not a degree program. MIT OpenCourseWare is a free and open publication of MIT course materials for use by students, educators and self-learners all over the world. Visit the Web site online at <http://ocw.mit.edu>.
2. **Courses offered in space law or related to space law:** MIT OpenCourseWare offers the educational materials from one course in space policy, "Course 16.891J/ ESD.129 Space Policy Seminar, Spring 2003," taught by MIT Professors Daniel Hastings and Jeffrey Hoffman. The seminar course explores current issues in space policy as well as the historical roots for the issues. Emphasis on critical policy discussion combined with serious technical analysis. The range of issues cover national security space policy, civil space policy, as well as commercial space policy. Issues explored include: the GPS dilemma, the International Space Station choices, commercial launch from foreign countries, and the fate of satellite-based cellular systems. The materials available include Lecture Notes, Readings, Assignments, Projects and a list of Related Resources on the Web. Course is available online at <http://ocw.mit.edu/OcwWeb/Aeronautics-and-Astronautics/16-891JSpace-Policy-SeminarSpring2003/CourseHome/index.htm>
3. **Number of faculty members in the programme:** Materials from 2 of MIT faculty
4. **Number of students in the programme:** Free and open educational resource available to educators, students and self-learners the world over.
5. **Language of instruction:** English
6. **Admission Standards:** No registration and no admissions required. Open and available to anyone with Internet connection at <http://ocw.mit.edu/OcwWeb/Aeronautics-and-Astronautics/16-891JSpace-Policy-SeminarSpring2003/CourseHome/index.htm>
7. **Cost of the programme:** Free and open access

8. **Other relevant information:** MIT OpenCourseWare is a large-scale, Web-based publication of the educational materials from the MIT faculty's courses. This unique initiative enables the open sharing of the MIT faculty's teaching materials with educators, enrolled students and self-learners around the world. MIT OCW provides users with open access to the syllabi, lecture notes, course calendars, problem sets and solutions, exams, reading lists, even a selection of video lectures, from 914 MIT courses representing 33 academic disciplines and all five of MIT's schools. The initiative will include materials from approximately 1800 courses by the year 2008.

ACADEMIC PROGRAMMES

1. **Degrees offered in Space Law or related to space law:** Master of Science (M.S.) Degree in Space Systems Operations Management with emphasis in either Engineering and Technical Management; or Acquisition and Program Management.
2. **Courses offered in space law or related to space law:** Courses offered as an elective to the programme of studies in the Space Systems Operations Program: SPSM 5930, Space Law and Policy; SPSM 5600 Space Systems Acquisition Law (3 Credits each).
3. (a) **Number of faculty members in the programme:** 25
(b) **Number of students in the programme:** 80 (Denver) and 100 (Colorado Springs) Space System Management Program total
4. **Duration of the programme:** 39 credit hours, or approximately two and a half years
5. **Language of instruction:** English
6. **Admission Standards:** Applicants considered for admission to Webster University's graduate programs must have earned a recognized baccalaureate degree from an educational institution accredited by one of the six regional accrediting agencies in the United States. Students who completed their university education abroad must have earned an equivalent recognized baccalaureate degree, as determined by Webster University, and must submit original transcripts and the English translation. Full acceptance into the School of Business and Technology requires receipt of an official transcript from the baccalaureate granting institution with a minimum grade point average (G.P.A.) of 2.5. Students whose G.P.A. is above 2.0 but below 2.5 will be admitted under a "special status" category (see advancement to candidacy restrictions). Specialized graduate programs may have further admission requirements as outlined in their program description. Please see <http://www.webster.edu> for more information.
7. **Cost of the programme:**
 - (a) **Tuition:** Tuition for the 2007-2008 Academic year is \$435 USD per credit hour.
 - (b) **Textbooks:** Course material provided by Instructor on CD-ROM for SPSM 5930, cost \$20. On average, textbooks for other courses cost \$125 USD.
 - (c) **Room and board:** Room and Board not available through Webster University.
 - (d) **Other relevant costs:** None
8. (a) **Availability of fellowships/scholarships for foreign students:** Yes
(b) **If YES, number of fellowships/scholarships available:** Please see <http://www.webster.edu> for more information about scholarships and financial aid
