- Secretariat to the Space Industry Innovation Council
- www.space.gov.au

Australian Government

Department of Innovation, Industry, Science and Research

CLIMATE R³

- Outcome of APRSAF-17

Objectives:

- Assess regional benefits of climate-related satellite missions
- Raise awareness of these benefits
- Emphasise applications of space-derived information
- Identify future measures to enhance regional capacity and leverage global investment
- Allow for a better understanding of current position
- Lead to appropriate recommendations
