

**ECSL – IISL SYMPOSIUM ON CAPACITY BUILDING IN SPACE LAW**  
**UNCOPUOS, LEGAL SUBCOMMITTEE**  
**Vienna, Austria, 26 - 27 March 2007**

***Space law teaching and the  
need for a multidisciplinary  
approach***

**Pr. Armel KERREST**  
**Institut de Droit des Espaces Internationaux**  
**University of Western Brittany**

There is no space without law

Law applies to human activities within  
a space not to the space itself.

# What is space law ?

## The specificities of space activities

Dangerosity of the activity

Strategic importance of Outer Space

## The extend of space law

Law elaborated within the UN COPUOS

Law of activities in Outer space

Law of space activities/space utilisations

# Space law is multidisciplinary

Many domain of Law must be considered

Specificity of space environment and activities must be taken into consideration.

# Conclusions

- The specificity of Space law comes also from its quality and high level of responsibility
- It is the honour of the States having proposed and accepted its rules.
- It is our role to teach it and pass it to next generations.

Thank you for your attention
