## Committee on the Peaceful Uses of Outer Space

### Information furnished in conformity with the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies

#### Note verbale dated 20 March 2024 from the Permanent Mission of the Kingdom of the Netherlands to the United Nations (Vienna) addressed to the Secretary-General

The Permanent Mission of the Kingdom of the Netherlands to the United Nations (Vienna), with reference to article XI of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies (General Assembly resolution 2222 (XXI), annex), has the honour to provide the Secretary-General with additional information concerning a space object included in the Online Index of Objects Launched into Outer Space. The information concerns the following space object:

Committee on Space Research international designator	[2022-002CU]
Name of space object	[Delfi-PQ]
Date of launch	[13 January 2022 UTC]
Location of launch	[Cape Canaveral, United States of America]
Basic orbital parameters	
Nodal period	[1 hour and 46 minutes]
Inclination	[97.4 degrees]
Apogee radius	[163 kilometres]
Perigee radius	[148 kilometres]
Geostationary orbit location	[-]
Nuclear power source	[No]

General function of the space object and other useful information relating to its function [Education and technology demonstration]

Web link to official information on the space object [www.rdi.nl/documenten/publicaties/2019/10/31/register-ruimtevoorwerpen](http://www.rdi.nl/documenten/publicaties/2019/10/31/register-ruimtevoorwerpen)

The additional information concerns a change of status of the space object. The space object is no longer in low Earth orbit. The satellite re-entered the Earth's atmosphere on 9 January 2024.

The space object referred to above is included in the national part of the Kingdom of the Netherlands registry of objects launched into outer space (Register ruimtevoorwerpen).<sup>1</sup>
